It is our intention that beginning on January 1, 2021, paper copies of the Funds' annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from a Fund or from your financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. At any time, you may elect to receive reports and certain communications from a Fund electronically by calling the applicable toll-free number below or by contacting your financial intermediary.

You may elect to receive all future shareholder reports in paper free of charge. If you hold shares of a Fund directly with the Fund's transfer agent, you can inform the transfer agent that you wish to receive paper copies of reports by calling toll-free 800-621-2550 for Institutional, Administration, Capital, Cash Management, Drexel Hamilton Class, Preferred, Premier, Resource, Service, Class R6 and Select shareholders or 800-526-7384 for Class A and Class C shareholders. If you hold shares of a Fund through a financial intermediary, please contact your financial intermediary to make this election. Your election to receive reports in paper will apply to all Goldman Sachs Funds held in your account if you invest through your financial intermediary or all Goldman Sachs Funds held with the Funds' transfer agent if you invest directly with the transfer agent.

# Goldman Sachs Financial Square Funds

## Investment Objective and Principal Investment Strategies

Each of the Goldman Sachs Financial Square Funds seek to maximize current income to the extent consistent with the preservation of capital and the maintenance of liquidity by investing exclusively in high quality money market instruments. The Goldman Sachs Prime Obligations Fund and the Goldman Sachs Money Market Fund pursue this investment objective by investing in U.S. government securities, obligations of banks (which may exceed 25% of its assets), commercial paper and other short-term obligations of U.S. companies, states, municipalities and other entities, and repurchase agreements (“repos”). They may also invest in U.S. dollar-denominated obligations of foreign banks, foreign companies and foreign governments. The Goldman Sachs Treasury Obligations Fund pursues the investment objective by investing only in U.S. Treasury obligations and repos collateralized by U.S. Treasury obligations. The Goldman Sachs Treasury Instruments Fund pursues the investment objective by investing only in U.S. Treasury obligations, the interest from which is generally exempt from state income taxation. The Goldman Sachs Treasury Solutions Fund pursues the investment objective by investing only in U.S. Treasury obligations and repos with the Federal Reserve Bank of New York collateralized by U.S. Treasury obligations. The Goldman Sachs Government Fund pursues the investment objective by investing only in U.S. government securities and repos collateralized by such securities. The Goldman Sachs Federal Instruments Fund pursues the investment objective by investing only in U.S. government securities, the interest from which is generally exempt from state income taxation.

## Portfolio Management Discussion and Analysis

Below, the Goldman Sachs Money Market Portfolio Management Team discusses the Goldman Sachs Financial Square Funds’ (the “Funds”) performance and positioning for the 12-month period ended August 31, 2019 (the “Reporting Period”).

### Q What economic and market factors most influenced the money markets as a whole during the Reporting Period?

**A** Money market yields ended the Reporting Period slightly higher than they started, as the Federal Reserve (“Fed”) shifted its monetary policy stance. After raising the targeted federal funds rate in September and December 2018, Fed policymakers pivoted to a more accommodative stance, leaving it unchanged until July 2019, when they implemented an interest rate cut. Other influences on the money markets during the Reporting Period were the continuation of the Fed’s balance sheet normalization and the dovish stance of most developed markets’ central banks. (Balance sheet normalization refers to the steps the Fed is taking to reverse quantitative easing and remove the substantial monetary accommodation it has provided to the economy since the financial crisis began in 2007. Dovish tends to imply lower interest rates; opposite of hawkish.)

When the Reporting Period started in September 2018, U.S. economic growth was robust, though some major economies, including those of the Eurozone, the U.K. and China, exhibited a gradual weakening trend. The Fed raised the targeted federal funds rate by 25 basis points, citing ongoing strength in the U.S. labor market and a pickup in household

spending and business fixed investment. (A basis point is 1/100th of a percentage point.) The Fed’s dot plot pointed to another interest rate increase by the end of 2018 and three more during 2019. (The “dot plot” shows rate projections of the members of the Fed’s Open Market Committee.) Fed Chair Jerome Powell delivered an upbeat assessment of the U.S. economy, which supported market expectations for these additional Fed rate hikes in 2019. In December 2018, Fed policymakers raised the targeted federal funds rate by an additional 25 basis points, much as the market had expected, but lowered their projection for 2019 monetary policy tightening from three rate hikes to two.

In the first quarter of 2019, the Fed kept its monetary policy unchanged, with its dot plot projecting no interest rate hikes at all during 2019. The U.S. economy continued to benefit from strength in household consumption, which was underpinned by a healthy labor market. During the second calendar quarter, the Fed remained on hold and noted that inflation softness might be due to “transitory factors.” Meanwhile, market speculation about possible 2019 Fed rate cuts increased due to an accumulation of factors, including soft inflation, weakness in U.S. economic data, continued global economic growth headwinds from unresolved U.S.-China trade negotiations and weakness in the manufacturing

sector. In June 2019, eight of the 12 members on the Federal Open Market Committee projected interest rate cuts during the 2019 calendar year. Indeed, at its July policy meeting, the Fed delivered its first interest rate cut since 2008, with Fed Chair Powell describing it as a “mid-cycle adjustment.” The Fed also announced it would stop its balance sheet normalization at the end of September 2019, two months earlier than expected. In August 2019, as U.S. economic data showed signs of weakness and U.S.-China trade tensions persisted, market expectations for additional Fed rate cuts increased. In this environment, the U.S. Treasury yield curve partially inverted. (Yield curve is a spectrum of interest rates based on maturities of varying lengths.) More specifically, the spread, or differential, between the yields on two-year and 10-year U.S. Treasury securities inverted for the first time since 2007, meaning yields on two-year maturities were higher than those of 10-year U.S. Treasury securities. (A full inversion occurs when shorter-term yields exceed all longer-term yields.)

### **Q What key factors were responsible for the performance of the Funds during the Reporting Period?**

**A** The Funds’ yields rose during the Reporting Period, driven by the increase in money market yields, which occurred primarily because of the economic and market factors discussed above. When the Reporting Period began, the money market yield curve was upwardly sloping. However, it inverted as the Fed cut the targeted federal funds rate.

### **Q How did you manage the Funds during the Reporting Period?**

**A** Collectively, the Funds had investments in commercial paper, asset-backed commercial paper, U.S. Treasury securities, government agency securities, time deposits, certificates of deposit, floating rate securities, repurchase agreements (“repo”), government guaranteed paper, municipal securities and variable rate demand notes during the Reporting Period.

In our commercial paper strategies (i.e., the Goldman Sachs Financial Square Money Market Fund and the Goldman Sachs Financial Square Prime Obligations Fund), we maintained somewhat short weighted average maturities of between 34 and 40 days during the first four months of the Reporting Period in response to rather consistent clarity from the Fed around potential interest rate hikes in September and December 2018. For the same reason, we maintained relatively short weighted average maturities of between 16

and 37 days in our government repo strategies (i.e., the Goldman Sachs Financial Square Government Fund, the Goldman Sachs Financial Square Treasury Obligations Fund and the Goldman Sachs Financial Square Treasury Solutions Fund) and between 27 days and 50 days in our government non-repo strategies (i.e., the Goldman Sachs Financial Square Federal Instruments Fund and the Goldman Sachs Financial Square Treasury Instruments Fund). The Funds’ purchases were focused on floating rate securities, asset-backed commercial paper and government agency securities, all of which helped us to manage duration. (Duration is a measure of the Funds’ sensitivity to changes in interest rates).

After the December 2018 rate hike, the Fed’s path became less clear to us. As a result, we lengthened the weighted average maturities of our commercial paper, government repo and government non-repo strategies. Within our commercial paper strategies, we extended weighted average maturities to between 44 days and 52 days from January through May 2019. In our government repo strategies and our government non-repo strategies, we lengthened weighted average maturities to between 42 days and 50 days in December 2018. Then, from January through May 2019, we managed the weighted average maturities of our government repo strategies between 10 days and 46 days and our government non-repo strategies between 28 days and 47 days. As the Fed’s dovish bias became more apparent, we maintained the weighted average maturity of our commercial paper strategies between 38 days and 50 days from June through August 2019. During the same time period, we managed the weighted average maturity of our government repo strategies and government non-repo strategies between 16 days and 53 days and between 39 and 54 days, respectively. Purchases were focused overall on fixed-rate securities as we sought to manage the Funds’ duration.

The weighted average maturity of a money market fund is a measure of its price sensitivity to changes in interest rates. Also known as effective maturity, weighted average maturity measures the weighted average of the maturity date of bonds held by the Funds, taking into consideration any available maturity shortening features.

### **Q How did you manage the Funds’ weighted average life during the Reporting Period?**

**A** During the Reporting Period, we managed the weighted average life of the Funds below 120 days. In our commercial paper strategies, we managed the Funds’ weighted average life in a range between approximately 70 days and

approximately 103 days. In our government repo and government non-repo strategies, we managed the Funds' weighted average life in a range between approximately 58 days and approximately 118 days. The weighted average life of a money market fund is a measure of a money market fund's price sensitivity to changes in liquidity and/or credit risk.

Under amendments to SEC Rule 2a-7 that became effective in May 2010, the maximum allowable weighted average life of a money market fund is 120 days. While one of the goals of the SEC's money market fund rule is to reinforce conservative investment practices across the money market fund industry, our security selection process has long emphasized conservative investment choices.

**Q Did you make any changes to the Funds' portfolios during the Reporting Period?**

**A** During the Reporting Period, we made adjustments to the Funds' weighted average maturities and their allocations to specific investments based on then-current market conditions, our near-term view and anticipated and actual Fed monetary policy statements.

**Q What is the Funds' tactical view and strategy for the months ahead?**

**A** At the end of the Reporting Period, we expected the U.S. economic expansion to continue, albeit at a slower pace, with strength in consumer spending and services offsetting weakness in business investment and the manufacturing sector. Overall, we expected inflation to remain muted, with economic weakness tempering upside inflation pressures. Regarding the Fed's monetary policy, we expected the U.S. central bank to deliver "insurance interest rate cuts" during the final months of 2019 due to slowing U.S. economic growth against a backdrop of subdued inflation and elevated geopolitical uncertainty.

Overall, the Funds continue to be flexibly guided by shifting market conditions, and we have positioned them to seek to take advantage of anticipated interest rate movements. As always, we intend to continue to use our actively managed approach to seek the best possible return within the framework of our Funds' investment guidelines and objectives. In addition, we will continue to manage interest, liquidity and credit risk daily. We will also continue to closely monitor economic data, Fed policy and any shifts in the money market yield curve, as we strive to navigate the interest rate environment.

**GOVERNMENT MONEY MARKET FUNDS**

- Federal Instruments Fund
- Government Fund
- Treasury Instruments Fund
- Treasury Obligations Fund
- Treasury Solutions Fund

**You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.**

**INSTITUTIONAL MONEY MARKET FUNDS**

- Money Market Fund
- Prime Obligations Fund

**You could lose money by investing in the Fund. Because the share price of the Fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.**

# Financial Square Funds

## PERFORMANCE REVIEW<sup>1, 2</sup>

September 1, 2018– August 31, 2019	Fund Total Return (based on NAV) <sup>3</sup> Institutional Shares	SEC 7-Day Current Yield <sup>4</sup>	iMoneyNet Institutional Average <sup>5</sup>
Federal Instruments	2.18%	1.94%	2.02% <sup>6</sup>
Government	2.23	2.00	2.02 <sup>6</sup>
Money Market	2.52	2.23	2.22 <sup>7</sup>
Prime Obligations	2.51	2.22	2.22 <sup>7</sup>
Treasury Instruments	2.16	1.86	1.96 <sup>8</sup>
Treasury Obligations	2.20	1.94	2.00 <sup>9</sup>
Treasury Solutions	2.17	1.87	2.00 <sup>9</sup>

**The returns represent past performance. Past performance does not guarantee future results. The Funds' investment returns will fluctuate. Current performance may be lower or higher than the performance quoted above. Please visit our Web site at [www.GSAMFUNDS.com](http://www.GSAMFUNDS.com) to obtain the most recent month-end returns.** Performance reflects applicable fee waivers and/or expense limitations in effect during the periods shown. In their absence, performance would be reduced. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

<sup>1</sup> Each of the Treasury Obligations, Money Market, Treasury Instruments and Treasury Solutions Funds offers nine separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, Premier and Resource), the Federal Instruments Fund offers eight separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management and Premier), the Prime Obligations Fund offers ten separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, Premier, Resource and Drexel Hamilton Class), and the Government Fund offers thirteen separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, Premier, Resource, Drexel Hamilton Class, Class R6, Class A and Class C), each of which is subject to different fees and expenses that affect performance and entitles shareholders to different services. The Institutional, Drexel Hamilton Class, and Class R6 Shares do not have distribution and/or service (12b-1) or administration and/or service (non-12b-1) fees. The Select, Preferred, Capital, Administration, Service, Cash Management, Premier, Resource, Class A and Class C Shares offer financial institutions the opportunity to receive fees for providing certain distribution, administrative support and/or shareholder services (as applicable). As an annualized percentage of average daily net assets, these share classes pay combined distribution and/or service (12b-1), administration and/or service (non-12b-1) fees (as applicable) at the following contractual rates: the Select Shares pay 0.03%, Preferred Shares pay 0.10%, Capital Shares pay 0.15%, Administration Shares pay 0.25%, Service Shares pay 0.50%, Cash Management Shares pay 0.80%, Premier Shares pay 0.35%, Resource Shares pay 0.65%, Class A Shares pay 0.25% and Class C Shares pay 1.00%. If these fees were reflected in the above performance, performance would have been reduced. In addition, the Fund's performance does not reflect the deduction of any applicable sales charges.

<sup>2</sup> The investment adviser may contractually agree to waive or reimburse certain fees and expenses until a specified date. The investment adviser may also voluntarily waive certain fees and expenses, and such voluntary waivers may be discontinued or modified at any time without notice. The performance shown above reflects any waivers or reimbursements that were in effect for all or a portion of the periods shown. When waivers or reimbursements are in place, the Fund's operating expenses are reduced and the Fund's yield and total returns to the shareholder are increased.

<sup>3</sup> The net asset value (NAV) represents the net assets of the class of the Fund (ex-dividend) divided by the total number of shares of the class outstanding. A Fund's total return reflects the reinvestment of dividends and other distributions.

<sup>4</sup> The SEC 7-Day Current Yield is calculated in accordance with securities industry regulations and does not include net capital gains. SEC 7-Day Current Yield may differ slightly from the actual distribution rate of a given Fund because of the exclusion of distributed capital gains, which are non-recurring. **The SEC 7-Day Current Yield more closely reflects a Fund's current earnings than do the Fund Total Return figures.**

<sup>5</sup> Source: iMoneyNet, Inc. August 2019. The iMoneyNet Institutional Average represents total return.

<sup>6</sup> Government & Agencies Institutional–Category includes the most broadly based of the government institutional funds. These funds may generally invest in U.S. treasuries, U.S. agencies, repurchase agreements, or government-backed floating rate notes.

<sup>7</sup> First Tier Institutional–Category includes only non-government institutional funds that also are not holding any second tier securities. Portfolio holdings of First Tier funds include U.S. Treasury, U.S. other, repurchase agreements, time deposits, domestic bank obligations, foreign bank obligations, first tier commercial paper, floating rate notes, and asset-backed commercial paper.

<sup>8</sup> Treasury Institutional–Category includes only institutional government funds that hold 100 percent in U.S. Treasuries.

<sup>9</sup> Treasury & Repo Institutional–Category includes only institutional government funds that hold U.S. Treasuries and repurchase agreements backed by the U.S. Treasury.

**The Yields represent past performance. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted above.**

**Yields reflect fee waivers and expense limitations in effect and will fluctuate as market conditions change. Please visit our Web site at [www.GSAMFUNDS.com](http://www.GSAMFUNDS.com) to obtain the most recent month-end performance.**

<sup>10</sup> The 7-Day Distribution Yield is an annualized measure of a Fund's dividends per share, divided by the price per share. This yield includes capital gain/loss distribution, if any. This is not an SEC Yield.

<sup>11</sup> The SEC 7-Day Effective Yield is calculated in accordance with securities industry regulations and does not include net capital gains. The SEC 7-Day Effective Yield assumes reinvestment of dividends for one year.

<sup>12</sup> The 30-Day Average Yield is a net annualized yield of 30 days back from the current date listed. This yield includes capital gain/loss distribution. This is not an SEC Yield.

<sup>13</sup> A Fund's weighted average maturity (WAM) is an average of the effective maturities of all securities held in the portfolio, weighted by each security's percentage of net assets. This must not exceed 60 days as calculated under SEC Rule 2a-7.

<sup>14</sup> A Fund's weighted average life (WAL) is an average of the final maturities of all securities held in the portfolio, weighted by each security's percentage of net assets. This must not exceed 120 days as calculated under SEC Rule 2a-7.

For more information about your Fund, please refer to [www.GSAMFUNDS.com](http://www.GSAMFUNDS.com). There, you can learn more about your Fund's investment strategies, holdings, and performance.

<b>NET ASSETS – 100.0%</b>			<b>\$1,533,109,347</b>

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

(a) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on August 31, 2019.

(b) All or a portion represents a forward commitment.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

---

**Investment Abbreviations:**

FEDL01—US Federal Funds Effective Rate

LIBOR —London Interbank Offered Rates

MMY —Money Market Yield

Prime —Federal Reserve Bank Prime Loan Rate US

SOFR —Secured Overnight Financing Rate

T-Bill —Treasury Bill

<b>TOTAL REPURCHASE AGREEMENTS</b>			\$ 71,885,051,250
<b>TOTAL INVESTMENTS – 99.5%</b>			\$110,124,288,126
<b>OTHER ASSETS IN EXCESS OF LIABILITIES – 0.5%</b>			530,328,601
<b>NET ASSETS – 100.0%</b>			\$110,654,616,727

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on August 31, 2019.
- (b) Unless noted, all repurchase agreements were entered into on August 31, 2019. Additional information on Joint Repurchase Agreement Accounts I and III appear on pages 39 and 40.
- (c) The instrument is subject to a demand feature.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

\$ 92,000,000	2.338% <sup>(c)</sup>	11/27/19	\$ 92,000,000
Maturity Value: \$93,917,938			
Settlement Date: 01/10/19			
Collateralized by municipal debt obligations, 6.375% to 8.250%, due 07/01/24 to 01/01/49 and various asset-backed obligations, 0.000% to 7.350%, due 09/20/21 to 02/25/57. The aggregate market value of the collateral, including accrued interest, was \$101,199,998.			
<b>TOTAL REPURCHASE AGREEMENTS</b>			
<b>(Cost \$4,048,700,000)</b>			\$ 4,048,723,986
<b>TOTAL INVESTMENTS – 104.2%</b>			
<b>(Cost \$18,525,597,699)</b>			\$18,530,571,277
<b>LIABILITIES IN EXCESS OF OTHER ASSETS – (4.2)%</b>			(745,737,140)
<b>NET ASSETS – 100.0%</b>			\$17,784,834,137

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) All or a portion represents a forward commitment.
- (b) Exempt from registration under Rule 144A of the Securities Act of 1933.
- (c) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on August 31, 2019.
- (d) Rate shown is that which is in effect on August 31, 2019. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions.
- (e) Unless noted, all repurchase agreements were entered into on August 31, 2019. Additional information on Joint Repurchase Agreement Account III appears on page 40.
- (f) The instrument is subject to a demand feature.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

\$ 27,000,000	2.338% <sup>(b)</sup>	11/27/19	\$ 27,000,000
Maturity Value: \$27,562,873			
Settlement Date: 01/10/19			
Collateralized by municipal debt obligations, 4.329% to 8.250%, due 07/01/24 to 07/01/58 and various asset-backed obligations, 0.000% to 6.410%, due 10/15/21 to 02/25/57. The aggregate market value of the collateral, including accrued interest, was \$29,699,999.			
<b>TOTAL REPURCHASE AGREEMENTS</b>			
<b>(Cost \$1,491,200,000)</b>			\$1,491,210,372
<b>TOTAL INVESTMENTS – 101.9%</b>			
<b>(Cost \$6,331,425,192)</b>			\$6,333,191,241
<b>LIABILITIES IN EXCESS OF OTHER ASSETS – (1.9)%</b>			(87,178,214)
<b>NET ASSETS – 100.0%</b>			\$6,246,013,027

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Exempt from registration under Rule 144A of the Securities Act of 1933.
- (b) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on August 31, 2019.
- (c) Rate shown is that which is in effect on August 31, 2019. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions.
- (d) Unless noted, all repurchase agreements were entered into on August 31, 2019. Additional information on Joint Repurchase Agreement Account III appears on page 40.
- (e) The instrument is subject to a demand feature.
- (f) All or a portion represents a forward commitment.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

(a) All or a portion represents a forward commitment.

(b) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on August 31, 2019.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

<b>NET ASSETS – 100.0%</b>			<b>\$16,562,514,876</b>

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on August 31, 2019.
- (b) Unless noted, all repurchase agreements were entered into on August 31, 2019. Additional information on Joint Repurchase Agreement Account I appears on page 39.
- (c) The instrument is subject to a demand feature.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

(c) Amount is less than \$0.00005 per share.

(d) Distributions may not coincide with the current year net investment income or net realized gains as distributions may be paid from current or prior year earnings.

(e) Assumes investment at the net asset value at the beginning of the year, reinvestment of all dividends and distributions and a complete redemption of the investment at the net asset value at the end of the year. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

# Notes to Financial Statements

August 31, 2019

## 1. ORGANIZATION

Goldman Sachs Trust (the “Trust”) is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the “Act”), as an open-end management investment company. The following table lists those series of the Trust that are included in this report (collectively, the “Funds” or individually a “Fund”), along with their corresponding share classes and respective diversification status under the Act:

Fund	Share Classes Offered	Diversified/ Non-Diversified
Federal Instruments	Institutional, Select, Preferred, Capital, Administration, Premier, Service, and Cash Management	Diversified
Government	Institutional, Select, Preferred, Capital, Administration, Premier, Service, Class A, Class C, Resource, Cash Management, and Class R6	Diversified
Money Market, Prime Obligations, Treasury Instruments, Treasury Obligations, and Treasury Solutions	Institutional, Select, Preferred, Capital, Administration, Premier, Service, Resource, and Cash Management	Diversified

Class C Shares may typically be acquired only in an exchange for Class C Shares of another Goldman Sachs Fund. Class C Shares may be subject to a contingent deferred sales charge (“CDSC”) of 1.00% during the first 12 months, measured from the time the original shares subject to the CDSC were acquired.

Goldman Sachs Asset Management, L.P. (“GSAM”), an affiliate of Goldman Sachs & Co. LLC (“Goldman Sachs”), serves as investment adviser to the Funds pursuant to management agreements (the “Agreements”) with the Trust.

The following Funds were designated by the Board of Trustees (“Trustees”) as “institutional money market funds” under Rule 2a-7 under the Act: Financial Square Money Market Fund and Financial Square Prime Obligations Fund (the “Institutional Money Market Funds”). Each of the Institutional Money Market Funds must price its shares at a net asset value (“NAV”) reflecting market-based values of its portfolio securities (i.e., at a “floating” NAV) rounded to the fourth decimal place (e.g., \$1.0000).

## 2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and require management to make estimates and assumptions that may affect the reported amounts and disclosures. Actual results may differ from those estimates and assumptions. Each Fund is an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies.

**A. Investment Valuation** — The investment valuation policy of the Funds, except for the Institutional Money Market Funds, is to use the amortized-cost method permitted by Rule 2a-7 under the Act for valuing portfolio securities. The amortized-cost method of valuation involves valuing a security at its cost and thereafter applying a constant accretion or amortization to maturity of any discount or premium. Normally, a security’s amortized cost will approximate its market value. Under procedures and tolerances approved by the Trustees, GSAM evaluates daily the difference between each Fund’s NAV per share using the amortized costs of its portfolio securities and the Fund’s NAV per share using market-based values of its portfolio securities. The Institutional Money Market Funds’ investment valuation policy is to value its portfolio securities only at market-based values. The market-based value of a portfolio security is determined, where readily available, on the basis of market quotations provided by pricing services or securities dealers, or, where accurate market quotations are not readily available, on the basis of the security’s fair value as determined in accordance with Valuation Procedures approved by the Trustees. The pricing services may use valuation models or matrix pricing, which may consider (among other things): (i) yield or price with respect to debt securities that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from securities dealers to determine current value.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

**B. Investment Income and Investments** — Interest income is accrued daily and adjusted for amortization of premiums and accretion of discounts. Investment transactions are reflected on trade date. Realized gains and losses are calculated using identified cost.

**C. Class Allocations and Expenses** — Investment income, realized and unrealized gain (loss), if any, and non-class specific expenses of each Fund are allocated daily based upon the proportion of net assets of each class. Class specific expenses, where applicable, are borne by the respective share classes and include Distribution, Service, Distribution and Service, Administration, Service and Administration, and Shareholder Administration fees and Transfer Agency fees. Non-class specific expenses directly incurred by a Fund are charged to that Fund, while such expenses incurred by the Trust are allocated across the respective Funds on a straight-line and/or pro-rata basis depending upon the nature of the expenses.

**D. Federal Taxes and Distributions to Shareholders** — It is each Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies (mutual funds) and to distribute each year substantially all of its investment company taxable and tax exempt income and capital gains to its shareholders. Accordingly, the Funds are not required to make any provisions for the payment of federal income tax. Distributions to shareholders are declared and recorded daily and paid monthly by the Funds and may include short-term capital gains. Long-term capital gain distributions, if any, are declared and paid annually. A Fund may defer or accelerate the timing of the distribution of short-term capital gains (or any portion thereof).

Net capital losses, if any, are carried forward to future fiscal years and may be used to the extent allowed by the Code to offset any future capital gains. Utilization of capital loss carryforwards will reduce the requirement of future capital gains distributions.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with federal income tax rules, which may differ from GAAP. The source of each Fund's distributions may be shown in the accompanying financial statements as either from distributable earnings or capital. Certain components of the Funds' net assets on the Statements of Assets and Liabilities reflect permanent GAAP/tax differences based on the appropriate tax character.

**E. Forward Commitments** — A forward commitment involves entering into a contract to purchase or sell securities, typically on an extended settlement basis, for a fixed price at a future date. The purchase of securities on a forward commitment basis involves a risk of loss if the value of the security to be purchased declines before the settlement date. Conversely, the sale of securities on a forward commitment basis involves the risk that the value of the securities sold may increase before the settlement date. Although a Fund will generally purchase securities on a forward commitment basis with the intention of acquiring the securities for its portfolio, the Fund may dispose of forward commitments prior to settlement which may result in a realized gain or loss.

**F. Repurchase Agreements** — Repurchase agreements involve the purchase of securities subject to the seller's agreement to repurchase the securities at a mutually agreed upon date and price, under the terms of a Master Repurchase Agreement ("MRA"). During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of a Fund, including accrued interest, is required to exceed the value of the repurchase agreement, including accrued interest. The gross value of repurchase agreements is included in the Statements of Assets and Liabilities for financial reporting purposes. The underlying securities for all repurchase agreements are held at the Funds' custodian or designated sub-custodians under tri-party repurchase agreements.

An MRA governs transactions between a Fund and select counterparties. An MRA contains provisions for, among other things, initiation of the transaction, income payments, events of default, and maintenance of securities for repurchase agreements. An MRA also permits offsetting with collateral to create one single net payment in the event of default or similar events, including the bankruptcy or insolvency of a counterparty.

If the seller defaults, a Fund could suffer a loss to the extent that the proceeds from the sale of the underlying securities and other collateral held by the Fund are less than the repurchase price and the Fund's costs associated with delay and enforcement of the repurchase agreement. In addition, in the event of default or insolvency of the seller, a court could determine that a Fund's interest in the collateral is not enforceable, resulting in additional losses to the Fund.

# Notes to Financial Statements (continued)

August 31, 2019

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Pursuant to exemptive relief granted by the Securities and Exchange Commission (“SEC”) and terms and conditions contained therein, the Funds, together with other funds of the Trust and registered investment companies having management agreements with GSAM or its affiliates, may transfer uninvested cash into joint accounts, the daily aggregate balance of which is invested in one or more repurchase agreements. Under these joint accounts, the Funds maintain pro-rata credit exposure to the underlying repurchase agreements’ counterparties. With the exception of certain transaction fees, the Funds are not subject to any expenses in relation to these investments.

## 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS

U.S. GAAP defines the fair value of a financial instrument as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price); the Funds’ policy is to use the market approach. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these investments. The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including, but not limited to, quoted prices for similar investments, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly;

Level 3 — Prices or valuations that require significant unobservable inputs (including GSAM’s assumptions in determining fair value measurement).

The Trustees have approved Valuation Procedures that govern the valuation of the portfolio investments held by the Funds, including investments for which market quotations are not readily available. The Trustees have delegated to GSAM day-to-day responsibility for implementing and maintaining internal controls and procedures related to the valuation (including both the amortized cost and market-based methods of valuation) of the Funds’ investments. To assess the continuing appropriateness of pricing sources and methodologies related to the market-based method of valuation, GSAM regularly performs price verification procedures and issues challenges as necessary to third party pricing vendors or brokers, and any differences are reviewed in accordance with the Valuation Procedures.

As of August 31, 2019, all investments and repurchase agreements, other than those held by the Institutional Money Market Funds, are classified as Level 2 of the fair value hierarchy. All investments for the Institutional Money Market Funds are classified as Level 2, with the exception of treasury securities of G8 countries which are generally classified as Level 1. Please refer to the Schedules of Investments for further detail.

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS

**A. Management Agreements** — Under the Agreements, GSAM manages the Funds, subject to the general supervision of the Trustees.

As compensation for the services rendered pursuant to the Agreements, the assumption of the expenses related thereto and administration of the Funds’ business affairs, including providing facilities, GSAM is entitled to a management fee, accrued daily and paid monthly, equal to an annual percentage rate of each Fund’s average daily net assets.

**B. Administration, Service and/or Shareholder Administration Plans** — The Trust, on behalf of each applicable Fund, has adopted Administration, Service and/or Shareholder Administration Plans (the “Plans”) to allow Class C, Select, Preferred, Capital, Administration, Premier, Service, Resource and Cash Management Shares to compensate service organizations (including

#### 4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

Goldman Sachs) for providing varying levels of account administration and/or personal and account maintenance services to their customers who are beneficial owners of such shares. The Plans provide for compensation to the service organizations equal to an annual percentage rate of the average daily net assets of such shares.

**C. Distribution and/or Service (12b-1) Plans** — The Trust, on behalf of Class A Shares of each applicable Fund, has adopted a Distribution and Service Plan subject to Rule 12b-1 under the Act. Under the Distribution and Service Plan, Goldman Sachs, which serves as distributor (the “Distributor”), is entitled to a fee accrued daily and paid monthly for distribution services and personal and account maintenance services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class A Shares of the Funds, as set forth below.

The Trust, on behalf of Class C, Resource and Cash Management Shares of each applicable Fund, has adopted Distribution Plans subject to Rule 12b-1 under the Act. Under the Distribution Plans, Goldman Sachs as Distributor is entitled to a fee accrued daily and paid monthly for distribution services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class C, Resource and Cash Management Shares of the Funds, as set forth below.

The Trust, on behalf of the Service Shares of each applicable Fund, has adopted a Service Plan subject to Rule 12b-1 under the Act to allow Service Shares to compensate service organizations (including Goldman Sachs) for providing personal and account maintenance services to their customers who are beneficial owners of such shares. The Service Plan provides for compensation to the service organizations equal to an annual percentage rate of the average daily net assets attributable to Services Shares of the Funds, as set forth below.

**D. Distribution Agreement** — Goldman Sachs, as Distributor of the shares of the Funds pursuant to a Distribution Agreement, may retain a portion of the Class C Shares’ CDSC. During the fiscal year ended August 31, 2019, Goldman Sachs has advised that it retained \$2,296 in CDSCs with respect to Class C Shares of the Financial Square Government Fund.

**E. Transfer Agency Agreement** — Goldman Sachs also serves as the transfer agent of the Funds for a fee pursuant to a Transfer Agency Agreement. The fee charged for such transfer agency services is accrued daily and paid monthly and is equal to an annual percentage rate of each Fund’s average daily net assets.

**F. Other Agreements** — GSAM has agreed to reduce or limit certain “Other Expenses” of the Funds (excluding transfer agency fees and expenses, administration fees (as applicable), service fees (as applicable), shareholder administration fees (as applicable), taxes, interest, brokerage fees, expenses of shareholder meetings, litigation and indemnification, and extraordinary expenses) to the extent such expenses exceed, on an annual basis, 0.014% of the average daily net assets of each Fund. Such Other Expense reimbursements, if any, are accrued daily and paid monthly. These Other Expense limitations will remain in place through at least December 28, 2019, and prior to such date GSAM may not terminate the arrangements without the approval of the Trustees.

In addition, the Funds have entered into certain offset arrangements with the custodian which may result in a reduction of the Funds’ expenses and are received irrespective of the application of the “Other Expense” limitations described above.

#### G. Total Fund Expenses

##### Fund Contractual Fees

The contractual management fee rate is 0.18% for the Financial Square Federal Instruments, Financial Square Treasury Instruments, Financial Square Treasury Obligations and Financial Square Treasury Solutions Funds and 0.16% for the Financial Square Government, Financial Square Money Market and Financial Square Prime Obligations Funds.

# Notes to Financial Statements (continued)

August 31, 2019

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

Other contractual annualized rates for each of the Funds are as follows:

	Institutional Shares	Select Shares	Preferred Shares	Capital Shares	Administration Shares	Premier Shares	Service Shares	Resource Shares	Cash Management Shares	Class R6 Shares <sup>(a)</sup>	Class A Shares <sup>(a)</sup>	Class C Shares <sup>(a)</sup>

N/A — Fees not applicable to respective share class

(a) Government Fund only.

(b) Service (12b-1) fee only.

(c) Distribution (12b-1) fee only.

### Fund Effective Net Expenses (After Waivers and Reimbursements)

The investment adviser may contractually agree to waive or reimburse certain fees and expenses until a specified date. As of December 28, 2018, the investment adviser has agreed to not impose a portion of the management fee equal annually to 0.02% of the Financial Square Federal Instruments Fund's average daily net assets. This arrangement will remain in effect through at least December 28, 2019, and prior to such date, the investment adviser may not terminate the arrangement without the approval of the Board of Trustees. The investment adviser may also voluntarily waive certain fees and expenses, and such voluntary waivers may be discontinued or modified at any time without notice. From the beginning of the reporting period through September 30, 2018, the investment adviser implemented a voluntary temporary fee waiver equal annually to 0.08% of the average daily net assets of the Financial Square Prime Obligations Fund and Financial Square Money Market Fund. From October 1, 2018 through February 27, 2019, the investment adviser reduced the voluntary temporary fee waiver to a percentage rate equal annually to 0.06% of the average daily net assets for both Funds. From February 28, 2019 through May 7, 2019, the investment adviser reduced the voluntary temporary fee waiver to a percentage rate equal annually to 0.05% of the average daily net assets for both Funds. On May 8, 2019, the investment adviser reduced the voluntary temporary fee waiver to a percentage rate equal annually to 0.04% of the average daily net assets for both Funds.

During the fiscal year ended August 31, 2019, GSAM and Goldman Sachs (as applicable) agreed to waive all or a portion of the management fees and respective class-specific fees described above attributable to the Funds. The Funds are not obligated to reimburse GSAM or Goldman Sachs for prior fiscal year fee waivers and/or expense reimbursements, if any.

**4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)**

For the fiscal year ended August 31, 2019, expense reductions including any fee waivers and Other Expense reimbursements were as follows (in thousands):

Fund	Management Fee Waivers	Distribution, Administration, Service and/or Shareholder Administration Plans Fee Waivers	Custody Fee Reduction	Other Expense Reimbursements	Total Expense Reductions
Federal Instruments	\$ 147	\$—*	\$—	\$210	\$ 357
Government	—	—*	1	—	1
Money Market	7,109	—*	—	—	7,109
Prime Obligations	2,405	—*	—	43	2,448
Treasury Instruments	—*	—*	—	—	—
Treasury Obligations	—*	—*	—	—	—
Treasury Solutions	—*	—*	—	—	—

\* Amount less than one thousand.

For the fiscal year ended August 31, 2019, the net effective management fee rate was 0.18% for the Financial Square Treasury Instruments, Financial Square Treasury Obligations and Financial Square Treasury Solutions Funds, 0.16% for the Financial Square Federal Instruments Fund and Financial Square Government Fund and 0.11% for the Financial Square Money Market and Financial Square Prime Obligations Funds.

**H. Other Transactions with Affiliates** — A Fund may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is solely due to having a common investment adviser, common officers, or common Trustees.

For the fiscal year ended August 31, 2019, the purchase and sale transactions and related net realized gain (loss) for the Funds with affiliated funds in compliance with Rule 17a-7 under the Act were as follows:

Fund	Purchases	Sales	Net Realized Gain (Loss)
Federal Instruments	\$ —	\$ —	\$ —
Government	3,490,217,660	4,875,752,784	(135,637)
Money Market	—	—	—
Prime Obligations	—	—	—

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

As of August 31, 2019, The Goldman Sachs Group, Inc. was the beneficial owner of 5% or more of the outstanding share classes of the following Funds:

Fund	Select Shares	Capital Shares	Premier Shares	Service Shares	Resource Shares	Cash Management Shares
Federal Instruments	100%	8%	100%	—%	—%	55%
Money Market	—	—	100	13	100	100
Prime Obligations	—	—	100	—	100	100
Treasury Instruments	—	—	—	—	100	—
Treasury Obligations	—	—	—	—	100	—
Treasury Solutions	—	—	—	—	100	—

The following table provides information about the investment in issuers deemed to be affiliates of the Funds.

### Government Fund

Name of Affiliated Issuer	Value at 8/31/18	Purchases at Cost	Proceeds from Sales/maturities	Value at 8/31/19	Interest Income
Goldman Sachs & Co. -Repurchase Agreement	\$1,600,800,000	\$33,510,100,000	\$(35,110,900,000)	\$—	\$2,385,820

### Treasury Obligations Fund

Name of Affiliated Issuer	Value at 8/31/18	Purchases at Cost	Proceeds from Sales/maturities	Value at 8/31/19	Interest Income
Goldman Sachs & Co. -Repurchase Agreement	\$ 31,200,000	\$ 6,073,700,000	\$(6,104,900,000)	\$—	\$ 430,708

**I. Line of Credit Facility** — As of August 31, 2019, the Funds participated in a \$580,000,000 committed, unsecured revolving line of credit facility (the “facility”) together with other funds of the Trust and registered investment companies having management agreements with GSAM or its affiliates. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on the federal funds rate. The facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. For the fiscal year ended August 31, 2019, the Funds did not have any borrowings under the facility. Prior to April 30, 2019 the facility was \$770,000,000.

## 5. TAX INFORMATION

The tax character of distributions paid during the fiscal year ended August 31, 2019 was as follows:

	Federal Instruments	Government	Money Market	Prime Obligations	Treasury Instruments	Treasury Obligations	Treasury Solutions
Distribution paid from:							
Ordinary income	\$20,199,576	\$2,243,023,462	\$334,757,247	\$113,300,875	\$1,149,014,847	\$344,653,411	\$184,154,516
Net long-term capital gains	—	—	2	—	—	—	328
<b>Total distributions</b>	<b>\$20,199,576</b>	<b>\$2,243,023,462</b>	<b>\$334,757,249</b>	<b>\$113,300,875</b>	<b>\$1,149,014,847</b>	<b>\$344,653,411</b>	<b>\$184,154,844</b>

The tax character of distributions paid during the fiscal year ended August 31, 2018 was as follows:

	Federal Instruments	Government	Money Market	Prime Obligations	Treasury Instruments	Treasury Obligations	Treasury Solutions
Distribution paid from:							
Ordinary income	\$7,768,964	\$1,260,391,637	\$95,109,320	\$40,230,656	\$667,505,941	\$216,584,727	\$117,381,401

Unrealized gains (losses) — net	\$ (1,882)	\$ (26,005)	\$ 4,972,391	\$ 1,765,732	\$ (79,489)	\$ (4,570)	\$ (40,141)
<b>Total accumulated earnings (losses) — net</b>	<b>\$ 89,608</b>	<b>\$ 5,717,206</b>	<b>\$ 5,286,592</b>	<b>\$ 1,946,780</b>	<b>\$ 6,069,326</b>	<b>\$ 1,240,956</b>	<b>\$ 921,942</b>

During the fiscal year ended August 31, 2019, the Financial Square Government and Financial Square Treasury Obligations Funds utilized \$2,808,112 and \$274,584, respectively, in capital loss carryforwards from prior years.

At August 31, 2019, the aggregate cost for each Fund stated in the accompanying Statements of Assets and Liabilities also represents aggregate cost for U.S. federal income tax purposes.

GSAM has reviewed the Funds' tax positions for all open tax years (the current and prior three tax years, as applicable) and has concluded that no provision for income tax is required in the Funds' financial statements. Such open tax years remain subject to examination and adjustment by tax authorities.

# Notes to Financial Statements (continued)

August 31, 2019

## 6. OTHER RISKS

The Funds' risks include, but are not limited to, the following:

**Large Shareholder Transactions Risk** — A Fund may experience adverse effects when certain large shareholders, such as other funds, institutional investors (including those trading by use of non-discretionary mathematical formulas), financial intermediaries (who may make investment decisions on behalf of underlying clients and/or include a Fund in their investment model), individuals, accounts and Goldman Sachs affiliates, purchase or redeem large amounts of shares of a Fund. Such large shareholder redemptions, which may occur rapidly or unexpectedly, may cause a Fund to sell portfolio securities at times when it would not otherwise do so, which may negatively impact the Fund's NAV and liquidity. Similarly, large Fund share purchases may adversely affect a Fund's performance to the extent that the Fund is delayed in investing new cash or otherwise maintains a larger cash position than it ordinarily would. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments resulted in gains, and may also increase transaction costs. In addition, a large redemption could result in a Fund's current expenses being allocated over a smaller asset base, leading to an increase in the Fund's expense ratio.

**Interest Rate Risk** — When interest rates increase, a Fund's yield will tend to be lower than prevailing market rates, and the market value of its securities or instruments may also be adversely affected. A low interest rate environment poses additional risks to a Fund, because low yields on the Fund's portfolio holdings may have an adverse impact on the Fund's ability to provide a positive yield to its shareholders, pay expenses out of Fund assets, or, at times, maintain a stable \$1.00 share price (or, for the Institutional Money Market Funds, minimize the volatility of the Fund's NAV per share). The risks associated with changing interest rates may have unpredictable effects on the markets and a Fund's investments. Fluctuations in interest rates may also affect the liquidity of fixed income securities and instruments held by the Funds.

**Market and Credit Risks** — In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk). Additionally, a Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which a Fund has unsettled or open transactions defaults.

**Credit/Default Risk** — An issuer or guarantor of a security held by a Fund, or a bank or other financial institution that has entered into a repurchase agreement with the Fund, may default on its obligation to pay interest and repay principal or default on any other obligation. Additionally, the credit quality of securities may deteriorate rapidly, which may impair a Fund's liquidity and cause significant deterioration in NAV.

## 7. INDEMNIFICATIONS

Under the Trust's organizational documents, its Trustees, officers, employees and agents are indemnified, to the extent permitted by the Act and state law, against certain liabilities that may arise out of performance of their duties to the Funds. Additionally, in the course of business, the Funds enter into contracts that contain a variety of indemnification clauses. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, GSAM believes the risk of loss under these arrangements to be remote.

## 8. OTHER MATTERS

**Exemptive Orders** — Pursuant to SEC exemptive orders, the Funds may enter into certain principal transactions, including repurchase agreements, with Goldman Sachs.

## 9. SUBSEQUENT EVENTS

Subsequent events after the Statements of Assets and Liabilities date have been evaluated and GSAM has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

# Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Goldman Sachs Trust and Shareholders of Goldman Sachs Financial Square Federal Instruments Fund, Goldman Sachs Financial Square Government Fund, Goldman Sachs Financial Square Money Market Fund, Goldman Sachs Financial Square Prime Obligations Fund, Goldman Sachs Financial Square Treasury Instruments Fund, Goldman Sachs Financial Square Treasury Obligations Fund, and Goldman Sachs Financial Square Treasury Solutions Fund:

## Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Goldman Sachs Federal Instruments Fund, Goldman Sachs Government Fund, Goldman Sachs Money Market Fund, Goldman Sachs Prime Obligations Fund, Goldman Sachs Treasury Instruments Fund, Goldman Sachs Treasury Obligations Fund, and Goldman Sachs Treasury Solutions Fund (seven of the funds constituting Goldman Sachs Trust, hereafter collectively referred to as the “Funds”) as of August 31, 2019, the related statements of operations for the year ended August 31, 2019, the statements of changes in net assets for each of the two years in the period ended August 31, 2019, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of August 31, 2019, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended August 31, 2019, and each of the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

## Basis for Opinions

These financial statements are the responsibility of the Funds’ management. Our responsibility is to express an opinion on the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of August 31, 2019 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

PricewaterhouseCoopers LLP

Boston, Massachusetts  
October 24, 2019

We have served as the auditor of one or more investment companies in Goldman Sachs fund complex since 2000.

**Fund Expenses — Six Month Period Ended August 31, 2019 (Unaudited)**

As a shareholder of Institutional Shares, Select Shares, Preferred Shares, Capital Shares, Administration Shares, Premier Shares, Service Shares, Class A Shares, Class C Shares, Resource Shares, Cash Management Shares or Class R6 Shares of a Fund, you incur two types of costs: (1) transaction costs, including contingent deferred sales charges (with respect to Class C Shares); and (2) ongoing costs, including management fees and distribution, service, administration and/or shareholder administration fees (with respect to all share classes except Institutional Shares and Class R6 Shares) and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in Institutional Shares, Select Shares, Preferred Shares, Capital Shares, Administration Shares, Premier Shares, Service Shares, Class A Shares, Class C Shares, Resource Shares, Cash Management Shares or Class R6 Shares of the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from March 1, 2019 through August 31, 2019, which represents a period of 184 days in a 365-day year.

*Actual Expenses* — The first line under each share class in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000=8.6), then multiply the result by the number in the first line under the column heading entitled “Expenses Paid” to estimate the expenses you paid on your account during this period.

*Hypothetical Example for Comparison Purposes* — The second line under each share class in the table below provides information about hypothetical account values and hypothetical expenses based on the Funds’ actual net expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Funds’ actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges, redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

**Fund Expenses — Six Month Period Ended August 31, 2019 (Unaudited) (continued)**

\* Expenses for each share class are calculated using each Fund's annualized net expense ratio for the six months ended August 31, 2019. Expenses are calculated by multiplying the annualized net expense ratio by the average account value for the period; then multiplying the result by the number of days in the most recent fiscal half year, and then dividing that result by the number of days in the fiscal year. The annualized net expense ratios for the period were as follows:

## Statement Regarding Basis for Approval of Management Agreement (Unaudited)

### **Background**

The Goldman Sachs Financial Square Federal Instruments Fund, Goldman Sachs Financial Square Government Fund, Goldman Sachs Financial Square Money Market Fund, Goldman Sachs Financial Square Prime Obligations Fund, Goldman Sachs Financial Square Treasury Instruments Fund, Goldman Sachs Financial Square Treasury Obligations Fund, and Goldman Sachs Financial Square Treasury Solutions Fund (the “Funds”) are investment portfolios of Goldman Sachs Trust (the “Trust”). The Board of Trustees oversees the management of the Trust and reviews the investment performance and expenses of the Funds at regularly scheduled meetings held throughout the year. In addition, the Board of Trustees determines annually whether to approve the continuance of the Trust’s investment management agreement (the “Management Agreement”) with Goldman Sachs Asset Management, L.P. (the “Investment Adviser”) on behalf of the Funds.

The Management Agreement was most recently approved for continuation until June 30, 2020 by the Board of Trustees, including those Trustees who are not parties to the Management Agreement or “interested persons” (as defined in the Investment Company Act of 1940, as amended) of any party thereto (the “Independent Trustees”), at a meeting held on June 11-12, 2019 (the “Annual Meeting”).

The review process undertaken by the Trustees spans the course of the year and culminates with the Annual Meeting. To assist the Trustees in their deliberations, the Trustees have established a Contract Review Committee (the “Committee”), comprised of the Independent Trustees. The Committee held four meetings over the course of the year since the Management Agreement was last approved. At those Committee meetings, regularly scheduled Board or other committee meetings, and/or the Annual Meeting, matters relevant to the renewal of the Management Agreement were considered by the Board, or the Independent Trustees, as applicable. With respect to each Fund, such matters included:

- (a) the nature and quality of the advisory, administrative, and other services provided to the Fund by the Investment Adviser and its affiliates, including information about:
  - (i) the structure, staff, and capabilities of the Investment Adviser and its portfolio management teams;
  - (ii) the groups within the Investment Adviser and its affiliates that support the portfolio management teams or provide other types of necessary services, including fund services groups (*e.g.*, accounting and financial reporting, tax, shareholder services, and operations); controls and risk management groups (*e.g.*, legal, compliance, valuation oversight, credit risk management, internal audit, compliance testing, market risk analysis, finance, and central funding); sales and distribution support groups, and others (*e.g.*, information technology and training);
  - (iii) trends in employee headcount;
  - (iv) the Investment Adviser’s financial resources and ability to hire and retain talented personnel and strengthen its operations; and
  - (v) the parent company’s support of the Investment Adviser and its mutual fund business, as expressed by the firm’s senior management;
- (b) information on the investment performance of the Fund, including comparisons to the performance of similar mutual funds, as provided by a third-party mutual fund data provider engaged as part of the contract review process (the “Outside Data Provider”); and information on general investment outlooks in the markets in which the Fund invests;
- (c) information provided by the Investment Adviser indicating the Investment Adviser’s views on whether the Fund’s peer group and/or benchmark index had high, medium, or low relevance given the Fund’s particular investment strategy;
- (d) the terms of the Management Agreement and other agreements with affiliated service providers entered into by the Trust on behalf of the Fund;
- (e) fee and expense information for the Fund, including:
  - (i) the relative management fee and expense levels of the Fund as compared to those of comparable funds managed by other advisers, as provided by the Outside Data Provider;
  - (ii) the Fund’s expense trends over time; and
  - (iii) to the extent the Investment Adviser manages other types of accounts (such as bank collective trusts, private wealth management accounts, institutional separate accounts, sub-advised mutual funds, and non-U.S. funds) having investment objectives and policies similar to those of the Fund, comparative information on the advisory fees charged and services provided to those accounts by the Investment Adviser;
- (f) with respect to the extensive investment performance and expense comparison data provided by the Outside Data Provider, its processes in producing that data for the Fund;
- (g) the undertakings of the Investment Adviser and its affiliates to implement fee waivers and/or expense limitations;
- (h) information relating to the profitability of the Management Agreement and the transfer agency and distribution and service arrangements of the Fund to the Investment Adviser and its affiliates;
- (i) whether the Fund’s existing management fee adequately addressed any economies of scale;

## Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

- (j) a summary of the “fall-out” benefits derived by the Investment Adviser and its affiliates from their relationships with the Fund, including the fees received by the Investment Adviser’s affiliates from the Fund for transfer agency, distribution and other services;
- (k) a summary of potential benefits derived by the Fund as a result of its relationship with the Investment Adviser;
- (l) information regarding portfolio trading and how the Investment Adviser carries out its duty to seek best execution;
- (m) the nature and quality of the services provided to the Fund by its unaffiliated service providers, and the Investment Adviser’s general oversight and evaluation (including reports on due diligence) of those service providers as part of the administrative services provided under the Management Agreement; and
- (n) the Investment Adviser’s processes and policies addressing various types of potential conflicts of interest; its approach to risk management; the annual review of the effectiveness of the Fund’s compliance program; and periodic compliance reports.

The Trustees also received an overview of the Funds’ distribution arrangements. They received information regarding the Funds’ assets, share purchase and redemption activity, and payment of distribution, service, and shareholder administration fees, as applicable. Information was also provided to the Trustees relating to revenue sharing payments made by and services provided by the Investment Adviser and its affiliates to intermediaries that promote the sale, distribution, and/or servicing of Fund shares. The Independent Trustees also discussed the broad range of other investment choices that are available to Fund investors, including the availability of comparable funds managed by other advisers.

The presentations made at the Board and Committee meetings and at the Annual Meeting encompassed the Funds and other mutual funds for which the Board of Trustees has responsibility. In evaluating the Management Agreement at the Annual Meeting, the Trustees relied upon their knowledge, resulting from their meetings and other interactions throughout the year, of the Investment Adviser and its affiliates, their services, and the Funds. In conjunction with these meetings, the Trustees received written materials and oral presentations on the topics covered, and the Investment Adviser addressed the questions and concerns of the Trustees, including concerns regarding the investment performance of certain of the funds they oversee. The Independent Trustees were advised by their independent legal counsel regarding their responsibilities and other regulatory requirements related to the approval and continuation of mutual fund investment management agreements under applicable law. In addition, the Investment Adviser and its affiliates provided the Independent Trustees with a written response to a formal request for information sent on behalf of the Independent Trustees by their independent legal counsel. During the course of their deliberations, the Independent Trustees met in executive sessions with their independent legal counsel, without representatives of the Investment Adviser or its affiliates present.

### **Nature, Extent, and Quality of the Services Provided Under the Management Agreement**

As part of their review, the Trustees considered the nature, extent, and quality of the services provided to the Funds by the Investment Adviser. In this regard, the Trustees considered both the investment advisory services and non-advisory services that are provided by the Investment Adviser and its affiliates. The Trustees noted the transition in the leadership and changes in personnel of various of the Investment Adviser’s portfolio management teams that had occurred in recent periods, and the ongoing recruitment efforts aimed at bringing high quality investment talent to the Investment Adviser. They also noted the Investment Adviser’s commitment to maintaining high quality systems and expending substantial resources to respond to ongoing changes to the regulatory and control environment in which the Funds and their service providers operate, as well as the efforts of the Investment Adviser and its affiliates to combat cyber security risks. The Trustees concluded that the Investment Adviser continued to commit substantial financial and operational resources to the Funds and expressed confidence that the Investment Adviser would continue to do so in the future. The Trustees also recognized that the Investment Adviser had made significant commitments to address regulatory compliance requirements applicable to the Funds and the Investment Adviser and its affiliates.

### **Investment Performance**

The Trustees also considered the investment performance of the Funds. In this regard, they compared the investment performance of each Fund to its peers using rankings compiled by the Outside Data Provider as of December 31, 2018. The information on each Fund’s investment performance was provided for the one-, three-, five-, and ten-year periods ending on the applicable dates, to the extent that each Fund had been in existence for those periods.

In addition, the Trustees considered materials prepared and presentations made by the Investment Adviser’s senior management and portfolio management personnel in which Fund performance was assessed. The Trustees also considered the Investment Adviser’s periodic reports with respect to the Funds’ risk profiles, and how the Investment Adviser’s approach to risk monitoring and management influences portfolio management.

## Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

The Trustees considered the performance of the Funds in light of their respective investment policies and strategies. They noted that, although the Funds had operated in a challenging yield environment since 2009, yields had improved, thereby reducing the amount of fees waived and/or reimbursed by the Investment Adviser. They also acknowledged the uncertainty of the future interest rate environment. The Trustees considered that, during the relevant period, the Investment Adviser had contractually waived fees for the Financial Square Federal Instruments Fund, reimbursed expenses for the Financial Square Federal Instruments and Financial Square Prime Obligations Funds, and had voluntarily waived fees for the Financial Square Money Market and Financial Square Prime Obligations Funds, in order to maintain competitive yields. They observed that the Investment Adviser had previously made certain contractual management fee waivers permanent in February 2018, lowering the Funds' contractual management fee, and had also reduced its voluntary management fee waivers for the Financial Square Money Market and Financial Square Prime Obligations Funds throughout the year with the rise in interest rates. They also acknowledged the growth of the Funds, particularly the relative growth of the Financial Square Money Market Fund and Financial Square Prime Obligations Fund, in recent periods. The Trustees also considered that the Financial Square Federal Instruments Fund, Financial Square Government Fund, Financial Square Treasury Instruments Fund, Financial Square Treasury Obligations Fund and Financial Square Treasury Solutions Fund had each maintained a stable net asset value per share and that the net asset value per share for each of the Financial Square Money Market Fund and Financial Square Prime Obligations Fund had experienced minimal principal volatility. In light of these considerations, the Trustees believed that the Funds were providing investment performance within a competitive range for investors.

### **Costs of Services Provided and Competitive Information**

The Trustees considered the contractual terms of the Management Agreement and the fee rates payable by each Fund thereunder. In this regard, the Trustees considered information on the services rendered by the Investment Adviser to the Funds, which included both advisory and administrative services that were directed to the needs and operations of the Funds as registered mutual funds.

In particular, the Trustees reviewed analyses prepared by the Outside Data Provider regarding the expense rankings of the Funds. The analyses provided a comparison of each Fund's management fee to those of a relevant peer group and category universe; an expense analysis which compared each Fund's overall net and gross expenses to a peer group and a category universe; and data comparing each Fund's net expenses to the peer and category medians. The analyses also compared each Fund's other expenses and fee waivers/reimbursements to those of the peer group and category medians. The Trustees concluded that the comparisons provided by the Outside Data Provider were useful in evaluating the reasonableness of the management fees and total expenses paid by the Funds.

In addition, the Trustees considered the Investment Adviser's undertakings to implement fee waivers and/or expense limitations. They noted that the Investment Adviser and Goldman Sachs & Co. LLC ("Goldman Sachs") had voluntarily waived fees for the Financial Square Money Market and Financial Square Prime Obligations Funds, contractually waived fees for the Financial Square Federal Instruments Fund, and reimbursed expenses for the Financial Square Federal Instruments and Financial Square Prime Obligations Funds in order to maintain competitive yields. They observed that the Investment Adviser had previously made certain contractual management fee waivers permanent in February 2018, lowering the Funds' contractual management fee, and had also reduced its voluntary management fee waivers for the Financial Square Money Market and Financial Square Prime Obligations Funds throughout the year with the rise in interest rates. They also considered, to the extent that the Investment Adviser manages other types of accounts having investment objectives and policies similar to those of the Funds, comparative fee information for services provided by the Investment Adviser to those accounts, and information that indicated that services provided to the Funds differed in various significant respects from the services provided to other types of accounts which, in many cases, operated under less stringent legal and regulatory structures, required fewer services from the Investment Adviser to a smaller number of client contact points, and were less time-intensive.

In addition, the Trustees noted that shareholders are able to redeem their Fund shares at any time if shareholders believe that the Fund fees and expenses are too high or if they are dissatisfied with the performance of the Fund.

### **Profitability**

The Trustees reviewed each Fund's contribution to the Investment Adviser's revenues and pre-tax profit margins. In this regard the Trustees noted that they had received, among other things, profitability analyses and summaries, revenue and expense schedules by Fund and by function (*i.e.*, investment management, transfer agency and distribution and service), and information on the Investment Adviser's expense allocation methodology. They observed that the profitability and expense figures are substantially similar to those used by the Investment Adviser for many internal purposes, including compensation decisions among various business groups, and are thus subject to a vigorous internal debate about how certain revenue and expenses should be

## Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

allocated. The Trustees also noted that the internal audit group within the Goldman Sachs organization periodically audits the expense allocation methodology and that the internal audit group was satisfied with the reasonableness, consistency, and accuracy of the Investment Adviser's expense allocation methodology. Profitability data for each Fund was provided for 2018 and 2017, and the Trustees considered this information in relation to the Investment Adviser's overall profitability.

### **Economies of Scale**

The Trustees considered the information that had been provided regarding whether there have been economies of scale with respect to the management of the Funds.

The Trustees noted that the Funds do not have management fee breakpoints. They considered the asset levels in the Funds; the Funds' recent purchase and redemption activity; the information provided by the Investment Adviser relating to the costs of the services provided by the Investment Adviser and its affiliates and their realized profits; information comparing the contractual fee rates charged by the Investment Adviser with fee rates charged to other money market funds in the peer groups; and the Investment Adviser's undertaking to limit certain expenses of the Funds that exceed specified levels. They considered a report prepared by the Outside Data Provider, which surveyed money market funds' management fee arrangements and use of breakpoints. The Trustees also considered the competitive nature of the money market fund business and the competitiveness of the fees charged to the Funds by the Investment Adviser.

### **Other Benefits to the Investment Adviser and Its Affiliates**

The Trustees also considered the other benefits derived by the Investment Adviser and its affiliates from their relationships with the Funds as stated above, including: (a) transfer agency fees received by Goldman Sachs; (b) trading efficiencies resulting from aggregation of orders of the Funds with those for other funds or accounts managed by the Investment Adviser; (c) the Investment Adviser's ability to leverage the infrastructure designed to service the Funds on behalf of its other clients; (d) the Investment Adviser's ability to cross-market other products and services to Fund shareholders; (e) Goldman Sachs' retention of certain fees as Fund Distributor; (f) Goldman Sachs' ability to engage in principal transactions with the Funds under exemptive orders from the U.S. Securities and Exchange Commission permitting such trades; (g) the Investment Adviser's ability to negotiate better pricing with custodians on behalf of its other clients, as a result of the relationship with the Funds; and (h) the possibility that the working relationship between the Investment Adviser and the Funds' third-party service providers may cause those service providers to be more likely to do business with other areas of Goldman Sachs. In the course of considering the foregoing, the Independent Trustees requested and received further information quantifying certain of these fall-out benefits.

### **Other Benefits to the Funds and Their Shareholders**

The Trustees also noted that the Funds receive certain other potential benefits as a result of their relationship with the Investment Adviser, including: (a) trading efficiencies resulting from aggregation of orders of the Funds with those of other funds or accounts managed by the Investment Adviser; (b) enhanced servicing from vendors due to the volume of business generated by the Investment Adviser and its affiliates; (c) enhanced servicing from broker-dealers due to the volume of business generated by the Investment Adviser and its affiliates; (d) the advantages received from the Investment Adviser's knowledge and experience gained from managing other accounts and products; (e) the Investment Adviser's ability to hire and retain qualified personnel to provide services to the Funds because of the reputation of the Goldman Sachs organization; (f) the Funds' access, through the Investment Adviser, to certain firm-wide resources (*e.g.*, proprietary risk management systems and databases), subject to certain restrictions; and (g) the Funds' access to certain affiliated distribution channels. In addition, the Trustees noted the competitive nature of the mutual fund marketplace, and considered that many of the Funds' shareholders invested in the Funds in part because of the Funds' relationship with the Investment Adviser and that those shareholders have a general expectation that the relationship will continue.

### **Conclusion**

In connection with their consideration of the Management Agreement, the Trustees gave weight to each of the factors described above, but did not identify any particular factor as controlling their decision. After deliberation and consideration of all of the information provided, including the factors described above, the Trustees concluded, in the exercise of their business judgment, that the management fees paid by each of the Funds were reasonable in light of the services provided to it by the Investment Adviser, the Investment Adviser's costs and each Fund's current and reasonably foreseeable asset levels. The Trustees unanimously concluded that the Investment Adviser's continued management likely would benefit each Fund and its shareholders and that the Management Agreement should be approved and continued with respect to each Fund until June 30, 2020.

## Trustees and Officers (Unaudited) (continued) Interested Trustee\*

Name, Address and Age <sup>1</sup>	Position(s) Held with the Trust	Term of Office and Length of Time Served <sup>2</sup>	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee <sup>3</sup>	Other Directorships Held by Trustee <sup>4</sup>
<b>James A. McNamara</b> Age: 56	President and Trustee	Since 2007	Advisory Director, Goldman Sachs (January 2018-Present); Managing Director, Goldman Sachs (January 2000-December 2017); Director of Institutional Fund Sales, GSAM (April 1998-December 2000); and Senior Vice President and Manager, Dreyfus Institutional Service Corporation (January 1993-April 1998).  President and Trustee — Goldman Sachs Trust; Goldman Sachs Variable Insurance Trust; Goldman Sachs Trust II; Goldman Sachs MLP Income Opportunities Fund; Goldman Sachs MLP and Energy Renaissance Fund; and Goldman Sachs ETF Trust.	161	None

\* Mr. McNamara is considered to be an “Interested Trustee” because he holds positions with Goldman Sachs and owns securities issued by The Goldman Sachs Group, Inc. Mr. McNamara holds comparable positions with certain other companies of which Goldman Sachs, GSAM or an affiliate thereof is the investment adviser, administrator and/or distributor.

<sup>1</sup> Each Trustee may be contacted by writing to the Trustee, c/o Goldman Sachs, 200 West Street, New York, New York, 10282, Attn: Caroline Kraus. Information is provided as of August 31, 2019.

<sup>2</sup> Subject to such policies as may be adopted by the Board from time-to-time, each Trustee holds office for an indefinite term, until the earliest of: (a) the election of his or her successor; (b) the date the Trustee resigns or is removed by the Board or shareholders, in accordance with the Trust’s Declaration of Trust; or (c) the termination of the Trust. The Board has adopted policies which provide that (a) no Trustee shall hold office for more than 15 years and (b) a Trustee shall retire as of December 31st of the calendar year in which he or she reaches his or her 74th birthday, unless a waiver of such requirement shall have been adopted by a majority of the other Trustees. These policies may be changed by the Trustees without shareholder vote.

<sup>3</sup> The Goldman Sachs Fund Complex includes certain other companies listed above for each respective Trustee. As of August 31, 2019, Goldman Sachs Trust consisted of 88 portfolios (87 of which offered shares to the public); Goldman Sachs Variable Insurance Trust consisted of 13 portfolios; Goldman Sachs Trust II consisted of 19 portfolios (17 of which offered shares to the public); Goldman Sachs MLP Income Opportunities Fund and Goldman Sachs MLP and Energy Renaissance Fund each consisted of one portfolio; and Goldman Sachs ETF Trust consisted of 39 portfolios (21 of which offered shares to the public).

<sup>4</sup> This column includes only directorships of companies required to report to the Securities and Exchange Commission under the Securities Exchange Act of 1934 (i.e., “public companies”) or other investment companies registered under the Act.

Additional information about the Trustees is available in the Funds’ Statement of Additional Information, which can be obtained from Goldman Sachs free of charge by calling this toll-free number (in the United States of America): 1-800-526-7384 (for shareholders of Class A Shares or Class C Shares) or 1-800-621-2550 (for shareholders of all other share classes of a Fund).

Goldman Sachs Asset Management, L.P., 200 West Street, New York, New York 10282

Economic and market forecasts presented herein reflect our judgment as of the date of this presentation and are subject to change without notice. These forecasts do not take into account the specific investment objectives, restrictions, tax and financial situation or other needs of any specific client. Actual data will vary and may not be reflected here. These forecasts are subject to high levels of uncertainty that may affect actual performance. Accordingly, these forecasts should be viewed as merely representative of a broad range of possible outcomes. These forecasts are estimated, based on assumptions, and are subject to significant revision and may change materially as economic and market conditions change. Goldman Sachs has no obligation to provide updates or changes to these forecasts. Case studies and examples are for illustrative purposes only.

The portfolio risk management process includes an effort to monitor and manage risk, but does not imply low risk. The reports concerning the Funds included in this shareholder report may contain certain forward-looking statements about the factors that may affect the performance of the Funds in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Funds, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Funds. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities and information regarding how a Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (i) without charge, upon request by calling 1-800-526-7384 (for shareholders of Class A Shares or Class C Shares) or 1-800-621-2550 (for shareholders of all other share classes of a Fund); and (ii) on the Securities and Exchange Commission ("SEC") web site at <http://www.sec.gov>.

Goldman Sachs & Co. LLC ("Goldman Sachs") does not provide legal, tax or accounting advice. Any statement contained in this communication (including any attachments) concerning U.S. tax matters was not intended or written to be used, and cannot be used, for the purpose of avoiding penalties under the Internal Revenue Code, and was written to support the promotion or marketing of the transaction(s) or matter(s) addressed. Clients of Goldman Sachs should obtain their own independent tax advice based on their particular circumstances. Fund holdings and allocations shown are as of August 31, 2019 and may not be representative of future investments. Fund holdings should not be relied on in making investment decisions and should not be construed as research or investment advice regarding particular securities. Current and future holdings are subject to risk.

Financial Square Funds<sup>SM</sup> is a registered service mark of Goldman Sachs & Co LLC.
