# Goldman Sachs Financial Square Funds 

#### Abstract

Investment Objective and Principal Investment Strategies Each of the Goldman Sachs Financial Square Funds seek to maximize current income to the extent consistent with the preservation of capital and the maintenance of liquidity by investing exclusively in high quality money market instruments. The Goldman Sachs Prime Obligations Fund and the Goldman Sachs Money Market Fund pursue this investment objective by investing in U.S. government securities, obligations of banks (which may exceed $25 \%$ of its assets), commercial paper and other short-term obligations of U.S. companies, states, municipalities and other entities, and repurchase agreements ("repos"). They may also invest in U.S. dollar-denominated obligations of foreign banks, foreign companies and foreign governments. The Goldman Sachs Treasury Obligations Fund pursues the investment objective by investing only in U.S. Treasury obligations and repos collateralized by U.S. Treasury obligations. The Goldman Sachs Treasury Instruments Fund pursues the investment objective by investing only in U.S. Treasury obligations, the interest from which is generally exempt from state income taxation. The Goldman Sachs Treasury Solutions Fund pursues the investment objective by investing only in U.S. Treasury obligations and repos with the Federal Reserve Bank of New York collateralized by U.S. Treasury obligations. The Goldman Sachs Government Fund pursues the investment objective by investing only in U.S. government securities and repos collateralized by such securities. The Goldman Sachs Federal Instruments Fund pursues the investment objective by investing only in U.S. government securities, the interest from which is generally exempt from state income taxation.

## Portfolio Management Discussion and Analysis

At a meeting of the Board of Trustees of Goldman Sachs Trust held on June 13-14, 2023, the Trustees approved the termination of the Resource, Premier, Select, Capital, Cash Management and Service Share Classes of the following Funds (the "Termination"):

## Fund

Financial Square Money Market Fund
Financial Square Prime Obligations Fund
Financial Square Treasury Instruments Fund
Financial Square Treasury Solutions Fund
Financial Square Treasury Instruments Fund

## Terminated Share Class (es)

Resource, Capital, Cash Management, Premier
Resource, Cash management, Premier, Service
Resource
Resource
Premier, Select

The Termination occurred on July 14, 2023.

Below, the Goldman Sachs Money Market Portfolio Management Team discusses the Funds' performance and positioning for the 12-month period ended November 30, 2023 (the "Reporting Period").

Q What economic and market factors most influenced the money markets as a whole during the Reporting Period?

A During the Reporting Period, the money markets were most influenced by Federal Reserve ("Fed") policy, inflationary trends and U.S. economic data.

In December 2022, when the Reporting Period began, the Fed announced a 50 basis point interest rate hike, raising the targeted federal funds ("fed funds") rate to a range between
$4.25 \%$ and $4.50 \%$, following four successive 75 basis point hikes. (A basis point is $1 / 100$ th of a percentage point.) However, policymakers emphasized they were not stepping back from their goal of taming inflation. The Fed's median dot plot projection, which shows the interest rate projections of the members of the Federal Open Market Committee, signaled a peak federal funds rate of between $5.00 \%$ and $5.25 \%$. The U.S. economy added 223,000 jobs in December, and the unemployment rate fell to a pre-pandemic cycle low of $3.5 \%$. Annual U.S. inflation declined from $7.2 \%$ to $6.4 \%$,
the sixth consecutive monthly fall and its lowest level in over a year. However, core prices increased, rising $0.3 \%$ month over month.

During the first quarter of 2023, the Fed continued tightening monetary policy, raising the fed funds rate twice-by 25 basis points in both February and March. In mid-March, Silicon Valley Bank and Signature Bank failed, marking the largest U.S. regional bank failure since the 2008 financial crisis. That same month, the Swiss government brokered a deal for UBS to purchase Credit Suisse, which was on the brink of collapse. During the quarter overall, a tight labor market and firm inflation supported the U.S. dollar, though economic growth headwinds from tighter financial and credit conditions led to dovish monetary policy expectations, weighing on the currency. (Dovish tends to suggest lower interest rates; opposite of hawkish.)

In the second quarter of 2023, the Fed raised the fed funds rate by another 25 basis points at its May policy meeting and signaled a willingness to pause on further rate actions, as U.S. inflation had started to moderate. Also in May, First Republic Bank was seized by the Federal Deposit Insurance Corporation and sold to JP Morgan Chase. In early June, the resolution of U.S. debt ceiling negotiations, coupled with the easing of banking sector stress, improved investor sentiment overall. Fed policymakers left interest rates unchanged at their June meeting, though Fed Chair Jerome Powell suggested hiking rates "at consecutive meetings is not off the table." The Fed's June dot plot showed a median projection of two additional rate hikes in 2023.

During the third quarter of 2023, Fed officials hiked the fed funds rate by an additional 25 basis points at their July policy meeting but remained on hold at their September meeting. Resilient U.S. economic data and market expectations that policy rates would stay higher for longer pushed up the 10 -year U.S. Treasury yield, which hit $4.63 \%$ on September 27th—its highest level since 2007. In August, Fitch Ratings downgraded long-term U.S. sovereign debt from AAA to AA + , reflecting U.S. government and medium-term fiscal challenges. Subsequently, Moody's Investors Service took ratings action on 27 U.S. banks in response to profitability concerns, low regulatory capital among regional banks compared to larger banks and global peers, and potential losses on loans (particularly for those with large commercial real estate exposure). The U.S. labor market remained strong, continuing to make progress toward rebalancing itself from pandemic-era extremes. Inflation eased overall, but there was a reacceleration in some key components. Nevertheless, the U.S. remained on a disinflationary path, supporting market expectations that the Fed may have reached the end of its current interest rate hiking cycle.

In October 2023, U.S. Treasury yields rose to multi-year highs, with the 10 -year U.S. Treasury yield briefly breaching $5 \%$ for the first time since 2007. The increase was driven, in our view, by better than previously anticipated U.S. economic
growth prospects, which dampened market expectations for Fed interest rate cuts in 2024. The Fed left the fed funds rate unchanged in October, as tighter financial conditions, led by higher long-term interest rates, alleviated the need, as determined by the Fed, for further policy tightening.

November 2023 saw the greatest easing of U.S. financial conditions in any month during the previous 40 years. The easing was largely the result of a significant drop in interest rates, with the 10 -year U.S. Treasury yield falling approximately 51 basis points during the month. Weaker inflation data and ongoing disinflation trends suggested the Fed might have reached the peak of its monetary policy tightening cycle. At their November meeting, Fed policymakers left the fed funds rate unchanged in a range between $5.25 \%$ and $5.50 \%$.

In this environment, the yields of money market funds increased. Investments in U.S. taxable money market funds rose during the Reporting Period, from approximately $\$ 4.5$ trillion to $\$ 5.7$ trillion, according to iMoneyNet. Money market funds overall continued to be viable investments for investors seeking stability, liquidity and/or yield amid ongoing uncertainty and elevated volatility in the financial markets broadly.

During the Reporting Period, the Securities \& Exchange Commission ("SEC") adopted changes to the rules that govern money market funds. While some of these changes have already taken effect, the remaining changes will take effect either by April 2, 2024 or October 2, 2024.

1. Effective October 2, 2023, institutional and retail money market funds were no longer permitted to temporarily restrict redemptions (a "redemption gate") and/ or impose a liquidity fee on redemptions (up to $2 \%$ ) if the applicable fund's portfolio liquidity fell below the required minimums. Government money market funds are exempt from requirements relating to these redemption gates and/or liquidity fees.
2. Effective April 2, 2024, institutional and retail money market funds will be permitted to impose a discretionary liquidity fee on redemptions (up to $2 \%$ ), if the applicable fund's board of trustees (or its delegate) determines that it is in the best interests of the fund to do so. Government money market funds will continue to be exempt from requirements relating to these discretionary liquidity fees. Institutional and retail money market funds may choose to rely on this modified discretionary liquidity fee framework prior to April 2, 2024.
3. Effective April 2, 2024, all money market funds will be required to increase their minimum levels of daily and weekly liquid assets from $10 \%$ and $30 \%$, respectively, to $25 \%$ and $50 \%$, respectively.
4. Effective October 2, 2024, institutional money market funds will be required to impose a mandatory liquidity fee on redemptions, if the applicable fund experiences total daily net redemptions that exceed $5 \%$ of net assets, unless the fee is de minimis (i.e., less than 1 basis point of the value of the shares redeemed). Government and retail money market funds will be exempt from these requirements.

## Q What key factors were responsible for the performance of the Funds during the Reporting Period?

A The Funds' yields increased during the Reporting Period primarily because of the economic and market factors discussed above. Yields rose along the money market yield curve, as the Fed raised the fed funds rate and tightened monetary policy. (Yield curve is a spectrum of interest rates based on maturities of varying lengths.) That said, the money market yield curve inverted during the Reporting Period. (In an inverted yield curve, shorter-term yields are higher than longer-term yields.) The middle segment of the yield curve rose well above the one-year segment early in the Reporting Period, though this inversion eased slightly toward the end of the Reporting Period.

During the Reporting Period, the Funds' positioning along the money market yield curve and in specific securities was predicated on market expectations about interest rates and the potential of additional Fed rate hikes in the near term.

## Q How did you manage the Funds during the Reporting Period?

A Collectively, the Funds had investments in commercial paper, asset-backed commercial paper, U.S. Treasury securities, government agency securities, time deposits, certificates of deposit, floating rate securities, repurchase agreements ("repos"), non-U.S. sovereign debt, municipal securities and variable rate demand notes ("VRDNs") during the Reporting Period.

In our commercial paper strategies, we maintained a weighted average maturity of between 15 and 54 days in the Goldman Sachs Financial Square Money Market Fund and a weighted average maturity of between 13 and 55 days in the Goldman Sachs Financial Square Prime Obligations Fund during the Reporting Period. Among our government repo strategies, we maintained a weighted average maturity of between 7 and 50 days in the Goldman Sachs Financial Square Government Fund, a weighted average maturity of between 1 and 46 days in the Goldman Sachs Financial Square Treasury Obligations Fund and a weighted average maturity of between 2 and 49 days in the Goldman Sachs Financial Square Treasury Solutions Fund. Within our government non-repo strategies, we maintained a weighted average maturity of between 17 and 51 days in the Goldman Sachs Financial Square Federal Instruments Fund and a weighted average maturity of between 18 and 59 days in the Goldman Sachs Financial Square

Treasury Instruments Fund. At any given time, a Fund's weighted average maturity is based on how market interest rates compare with our near-term expectations, including supply dynamics and monetary policy.

During the Reporting Period overall, our commercial paper strategies focused their investments on commercial paper, asset-backed commercial paper, U.S. Treasury securities, certificates of deposit and repos. Our government repo strategies focused their investments on government agency securities, government agency repos, U.S. Treasury securities and U.S. Treasury repos. Our government non-repo strategies focused their investments on government agency securities and U.S. Treasury securities.

The weighted average maturity of a money market fund is a measure of its price sensitivity to changes in interest rates. Also known as effective maturity, weighted average maturity measures the weighted average of the maturity date of bonds held by the Funds, taking into consideration any available maturity shortening features.

Q How did you manage the Funds' weighted
average life during the Reporting Period?
A In our commercial paper strategies, we managed the Funds' weighted average life in a range between approximately 54 and 102 days during the Reporting Period. In our government repo strategies, we managed the Funds' weighted average life in a range between approximately 22 and 117 days. In our government non-repo strategies, we managed the Funds' weighted average life in a range between approximately 77 and 120 days. The weighted average life of a money market fund is a measure of a money market fund's price sensitivity to changes in liquidity and/or credit risk.

Under amendments to SEC Rule 2a-7 that became effective in May 2010, the maximum allowable weighted average life of a money market fund is 120 days. While one of the goals of the SEC's money market fund rule is to reinforce conservative investment practices across the money market fund industry, our security selection process has long emphasized conservative investment choices.

## Q Did you make any changes to the Funds' portfolios during the Reporting Period?

A During the Reporting Period, we made adjustments to the Funds' weighted average maturities and their allocations to specific investments based on then-current market conditions, our near-term view and anticipated and actual Fed monetary policy statements.

Q What is the Funds' tactical view and strategy for the months ahead?

A At the end of the Reporting Period, with inflationary pressures subsiding, U.S. economic data had begun to support the possibility of a "soft landing." (A soft landing, in economics,
is a cyclical downturn that avoids recession. It typically describes attempts by central banks to raise interest rates just enough to stop an economy from overheating and experiencing high inflation, without causing a significant increase in unemployment, or a hard landing.) In our view, the Fed had reached an inflection point with respect to policy rates, and we believed it was likely the Fed would begin to lower rates in the first half of 2024. (At its December 2023 meeting, following the end of the Reporting Period, the Fed left interest rates unchanged and indicated that three rate cuts were possible in 2024.)

Market liquidity concerns at the end of the Reporting Period centered on the Fed's quantitative tightening (that is, reduction in the size of its balance sheet), the Fed's reverse repo ("RRP") facility and the continued large issuance of Treasury securities across all maturities-which, collectively, remove a significant amount of cash from the U.S. monetary system. (Through the RRP facility, the Fed borrows from financial entities, including money market mutual funds.) As a result, we thought short-term interest rates could fall in the nearterm compared to policy rate path proxies, such as overnight indexed swaps.

Going forward, the Funds will continue to be flexibly guided by shifting market conditions, and we have positioned them to align with our market and policy outlooks. Duration management and duration positioning will continue to play key roles in the management of the Funds. (Duration is a measure of a fund's sensitivity to changes in interest rates.) That said, regardless of the interest rate environment, we intend to utilize an active management approach to provide the best possible return within the framework of the Funds' guidelines and objectives. Our investment approach remains tri-fold-to seek preservation of capital, daily liquidity and maximization of yield potential. We will continue to manage interest, liquidity and credit risk daily. We will also continue to closely monitor economic data, Fed policy and any shifts in the taxable and tax-exempt money market yield curves, as we strive to navigate the interest rate environment.

```
GOVERNMENT MONEY MARKET FUNDS
- Federal Instruments Fund
_ Government Fund
- Treasury Instruments Fund
- Treasury Obligations Fund
- Treasury Solutions Fund
```

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at $\$ 1.00$ per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account or a deposit of the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

## INSTITUTIONAL MONEY MARKET FUNDS

- Money Market Fund
- Prime Obligations Fund

You could lose money by investing in the Fund. Because the share price of the Fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Fund may impose a fee upon sale of your shares. Effective October 2, 2024, the Fund generally must impose a fee when net sales of Fund shares exceed certain levels. An investment in the Fund is not a bank account or a deposit of the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Effective January 24, 2023, open-end mutual funds and exchange traded funds will be required to provide shareholders with streamlined annual and semi-annual shareholder reports ("Tailored Shareholder Reports"). Funds will be required to prepare a separate Tailored Shareholder Report for each share class of a fund that highlights key information to investors. Other information, including financial statements, will no longer appear in a fund's shareholder report, but will be available online, delivered free of charge upon request, and filed with the SEC on a semi-annual basis on Form N-CSR. The new requirements have a compliance date of July 24, 2024.

| Money Market Fund | 5.05 | 5.36 | $4.86{ }^{7}$ |
| Prime Obligations Fund | 5.04 | 5.36 | $4.86{ }^{7}$ |
| Treasury Instruments Fund | 4.84 | 5.23 | $4.54{ }^{8}$ |
| Treasury Obligations Fund | 4.91 | 5.23 | $4.63{ }^{9}$ |
| Treasury Solutions Fund | 4.91 | 5.24 | $4.63{ }^{9}$ |

The returns represent past performance. Past performance does not guarantee future results. The Funds' investment returns will fluctuate. Current performance may be lower or higher than the performance quoted above. Please visit our Web site at www.GSAMFUNDS.com to obtain the most recent month-end returns. Performance reflects applicable fee waivers and/or expense limitations in effect during the periods shown. In their absence, performance would be reduced. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.
${ }^{1}$ The Treasury Obligations Fund offers nine separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, Premier and Resource), the Money Market Fund offers five separate classes of shares (Institutional, Select, Preferred, Administration, and Service), the Treasury Solutions Fund offers eight separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, and Premier), the Treasury Instruments Fund offers ten separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, Premier, Loop Class, and Seelaus Class), the Federal Instruments Fund offers seven separate classes of shares (Institutional, Preferred, Capital, Administration, Service, Cash Management and Class D), the Prime Obligations Fund offers six separate classes of shares (Institutional, Select, Preferred, Capital, Administration, and Drexel Hamilton Class), and the Government Fund offers sixteen separate classes of shares (Institutional, Select, Preferred, Capital, Administration, Service, Cash Management, Premier, Resource, Drexel Hamilton Class, Loop Class, Seelaus Class, Class R6, Class A, Class C and Class D), each of which is subject to different fees and expenses that affect performance and entitles shareholders to different services. The Institutional, Drexel Hamilton Class, Loop Class, Seelaus Class, Class R6, and Class D Shares do not have distribution and/or service (12b-1) or administration and/ or service (non-12b-1) fees. The Select, Preferred, Capital, Administration, Service, Cash Management, Premier, Resource, Class A and Class C Shares offer financial institutions the opportunity to receive fees for providing certain distribution, administrative support and/or shareholder services (as applicable). As an annualized percentage of average daily net assets, these share classes pay combined distribution and/or service (12b-1), administration and/ or service (non-12b-1) fees (as applicable) at the following contractual rates: the Select Shares pay $0.03 \%$, Preferred Shares pay $0.10 \%$, Capital Shares pay $0.15 \%$, Administration Shares pay $0.25 \%$, Service Shares pay $0.50 \%$, Cash Management Shares pay $0.80 \%$, Premier Shares pay $0.35 \%$, Resource Shares pay $0.65 \%$, Class A Shares pay $0.25 \%$ and Class C Shares pay $1.00 \%$. If these fees were reflected in the above performance, performance would have been reduced. In addition, the Funds' performances do not reflect the deduction of any applicable sales charges.
${ }^{2}$ The investment adviser may contractually agree to waive or reimburse certain fees and expenses until a specified date. The investment adviser may also voluntarily waive certain fees and expenses, and such voluntary waivers may be discontinued or modified at any time without notice. The performance shown above reflects any waivers or reimbursements that were in effect for all or a portion of the periods shown. When waivers or reimbursements are in place, the Fund's operating expenses are reduced and the Fund's yield and total returns to the shareholder are increased.
${ }^{3}$ The net asset value (NAV) represents the net assets of the class of the Fund (ex-dividend) divided by the total number of shares of the class outstanding. A Fund's total return reflects the reinvestment of dividends and other distributions.
${ }^{4}$ The SEC 7-Day Current Yield is calculated in accordance with securities industry regulations and does not include net capital gains. SEC 7-Day Current Yield may differ slightly from the actual distribution rate of a given Fund because of the exclusion of distributed capital gains, which are non-recurring. The SEC 7-Day Current Yield more closely reflects a Fund's current earnings than do the Fund Total Return figures.
${ }^{5}$ Source: iMoneyNet, Inc. November 2023. The iMoneyNet Institutional Average represents total return.
${ }^{6}$ Government \& Agencies Institutional-Category includes the most broadly based of the government institutional funds. These funds may generally invest in U.S. treasuries, U.S. agencies, repurchase agreements, or government-backed floating rate notes.
${ }^{7}$ First Tier Institutional-Category includes only non-government institutional funds that also are not holding any second tier securities. Portfolio holdings of First Tier funds include U.S. Treasury, U.S. other, repurchase agreements, time deposits, domestic bank obligations, foreign bank obligations, first tier commercial paper, floating rate notes, and asset-backed commercial paper.
${ }^{8}$ Treasury Institutional-Category includes only institutional government funds that hold 100 percent in U.S. Treasuries.
${ }^{9}$ Treasury \& Repo Institutional-Category includes only institutional government funds that hold U.S. Treasuries and repurchase agreements backed by the U.S. Treasury.

## SUMMARY OF THE INSTITUTIONAL SHARES ${ }^{1,2}$ AS OF 11/30/23

| Funds | 7-Day Dist. Yield ${ }^{11}$ | SEC 7-Day Effective Yield ${ }^{12}$ | 30-Day Average Yield ${ }^{13}$ | Weighted Avg. Maturity (days) ${ }^{14}$ | Weighted Avg. Life (days) ${ }^{15}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Federal Instruments Fund | 5.25\% | 5.36\% | 5.25\% | 49 | 119 |
| Government Fund | 5.26\% | 5.39\% | 5.25\% | 40 | 107 |
| Money Market Fund | 5.36\% | 5.50\% | 5.36\% | 43 | 64 |
| Prime Obligations Fund | 5.37\% | 5.50\% | 5.37\% | 42 | 62 |
| Treasury Instruments Fund | 5.25\% | 5.37\% | 5.26\% | 45 | 100 |
| Treasury Obligations Fund | 5.26\% | 5.37\% | 5.26\% | 33 | 72 |
| Treasury Solutions Fund | 5.27\% | 5.37\% | 5.27\% | 38 | 83 |

The Yields represent past performance. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted above.

Yields reflect fee waivers and expense limitations in effect and will fluctuate as market conditions change. Please visit our Web site at www.GSAMFUNDS.com to obtain the most recent month-end performance.
${ }^{11}$ The 7-Day Distribution Yield is an annualized measure of a Fund's dividends per share, divided by the price per share. This yield includes capital gain/loss distribution, if any. This is not an SEC Yield.
${ }^{12}$ The SEC 7-Day Effective Yield is calculated in accordance with securities industry regulations and does not include net capital gains. The SEC 7-Day Effective Yield assumes reinvestment of dividends for one year.
${ }^{13}$ The 30-Day Average Yield is a net annualized yield of 30 days back from the current date listed. This yield includes capital gain/ loss distribution. This is not an SEC Yield.
${ }^{14}$ A Fund's weighted average maturity (WAM) is an average of the effective maturities of all securities held in the portfolio, weighted by each security's percentage of net assets. This must not exceed 60 days as calculated under SEC Rule 2a-7.
${ }^{15}$ A Fund's weighted average life (WAL) is an average of the final maturities of all securities held in the portfolio, weighted by each security's percentage of net assets. This must not exceed 120 days as calculated under SEC Rule 2a-7.

For more information about your Fund, please refer to www.GSAMFUNDS.com. There, you can learn more about your Fund's investment strategies, holdings, and performance.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.
(a) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on November 30, 2023.
(b) All or a portion represents a forward commitment.
(c) Unless noted, all repurchase agreements were entered into on November 30, 2023. Additional information on Joint Repurchase Agreement Account I and III appears in the Additional Investment Information section.
(d) The instrument is subject to a demand feature

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

## Schedule of Investments (continued)

November 30, 2023
(a) Exempt from registration under Rule 144A of the Securities Act of 1933.
(b) All or a portion represents a forward commitment.
(c) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on November 30, 2023.
(d) Rate shown is that which is in effect on November 30, 2023.

Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions.
(e) Unless noted, all repurchase agreements were entered into on November 30, 2023. Additional information on Joint Repurchase Agreement Account III appears in the Additional Investment Information section.
(f) The instrument is subject to a demand feature.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.
(a) Exempt from registration under Rule 144A of the Securities Act of 1933.
(b) All or a portion represents a forward commitment.
(c) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on November 30, 2023.
(d) Rate shown is that which is in effect on November 30, 2023. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions.
(e) Unless noted, all repurchase agreements were entered into on November 30, 2023. Additional information on Joint Repurchase Agreement Account III appears in the Additional Investment Information section.
(f) The instrument is subject to a demand feature.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.
(b) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on November 30, 2023.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.
(a) All or a portion represents a forward commitment.
(b) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on November 30, 2023.
(c) Unless noted, all repurchase agreements were entered into on November 30, 2023. Additional information on Joint Repurchase Agreement Account I appears in the Additional Investment Information section.
(d) The instrument is subject to a demand feature

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

| $\mathbf{2 . 0 \%}$ |  | $300,046,561$ |
| NET ASSETS - 100.0\% | $\$$ | $15,286,715,585$ |

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.
(a) All or a portion represents a forward commitment.
(b) Variable or floating rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on November 30, 2023.
(c) Unless noted, all repurchase agreements were entered into on November 30, 2023. Additional information on Joint Repurchase Agreement Account I and III appears in the Additional Investment Information section.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the final legal maturity date on the security, the demand date for puttable securities, the date of the next interest rate reset for variable rate securities, or the prerefunded date for those types of securities.

## Notes to Financial Statements

November 30, 2023

## 1. ORGANIZATION

Goldman Sachs Trust (the "Trust") is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. The following table lists those series of the Trust that are included in this report (collectively, the "Funds" or individually a "Fund"), along with their corresponding share classes and respective diversification status under the Act:

| Fund | Share Classes Offered | Diversified/ Non-diversified |
| :---: | :---: | :---: |
| Federal Instruments Fund | D, Institutional, Capital, Service, Preferred, Administration, and Cash Management and Premier | Diversified |
| Government Fund | A, C, D, Institutional, Capital, Service, Preferred, Select, Administration, Cash Management, Premier, Resource, R6, Drexel Hamilton, Loop, and Seelaus | Diversified |
| Money Market Fund | Institutional, Service, Preferred, Select, and Administration | Diversified |
| Prime Obligations Fund | Capital, Institutional, Preferred, Select, Administration, and Drexel Hamilton | Diversified |
| Treasury Instruments Fund | D, Capital, Institutional, Service, Preferred, Select, Administration, Cash Management, Premier, Loop and Seelaus | Diversified |
| Treasury Obligations Fund | Capital, Institutional, Service, Preferred, Select, Administration, Cash Management, and Premier | Diversified |
| Treasury Solutions Fund | Capital, Institutional, Service, Preferred, Select, Administration, Cash Management, and Premier | Diversified |

Class C Shares may typically be acquired only in an exchange for Class C Shares of another Goldman Sachs Fund. Class C Shares may be subject to a contingent deferred sales charge ("CDSC") of $1.00 \%$ during the first 12 months, measured from the time the original shares subject to the CDSC were acquired.

Goldman Sachs Asset Management, L.P. ("GSAM"), an affiliate of Goldman Sachs \& Co. LLC ("Goldman Sachs"), serves as investment adviser to the Funds pursuant to management agreements (the "Agreements") with the Trust.

The following Funds were designated by the Board of Trustees ("Trustees") as "institutional money market funds" under Rule 2a-7 under the Act: Financial Square Money Market Fund and Financial Square Prime Obligations Fund (the "Institutional Money Market Funds"). Each of the Institutional Money Market Funds must price its shares at a net asset value ("NAV") reflecting market-based values of its portfolio securities (i.e., at a "floating" NAV) rounded to the fourth decimal place (e.g., \$1.0000). The Institutional Money Market Funds have adopted policies and procedures that allow the Trustees to impose a liquidity fee if the Trustees determine that it is in the best interest of a Fund to do so. In addition, effective October 2, 2024, the Institutional Money Market Funds generally must impose a liquidity fee when net sales of Fund shares exceed certain levels.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and require management to make estimates and assumptions that may affect the reported amounts and disclosures. Actual results may differ from those estimates and assumptions. Each Fund is an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies.
A. Investment Valuation - The investment valuation policy of the Funds, except for the Institutional Money Market Funds, is to use the amortized-cost method permitted by Rule 2a-7 under the Act for valuing portfolio securities. The amortized-cost method of valuation involves valuing a security at its cost and thereafter applying a constant accretion or amortization to maturity of any discount or premium. Normally, a security's amortized cost will approximate its market value. Under procedures and tolerances approved by the Trustees, GSAM evaluates daily the difference between each Fund's NAV per share using the amortized costs of its portfolio securities and the Fund's NAV per share using market-based values of its portfolio securities. The Institutional Money Market Funds' investment valuation policy is to value its portfolio securities only at market-based values. The market-based value of a portfolio security is determined, where readily available, on the basis of market quotations provided by pricing services or securities dealers, or, where accurate market quotations are not readily available, on the basis of the security's fair value as

# Notes to Financial Statements (continued) 

November 30, 2023

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

determined in accordance with the Valuation Procedures. The pricing services may use valuation models or matrix pricing, which may consider (among other things): (i) yield or price with respect to debt securities that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from securities dealers to determine current value.
B. Investment Income and Investments - Interest income is accrued daily and adjusted for amortization of premiums and accretion of discounts. Investment transactions are reflected on trade date. Realized gains and losses are calculated using identified cost.
C. Class Allocations and Expenses - Investment income, realized and unrealized gain (loss), if any, and non-class specific expenses of each Fund are allocated daily based upon the proportion of net assets of each class. Class specific expenses, where applicable, are borne by the respective share classes and include Distribution, Service, Distribution and Service, Administration, Service and Administration, and Shareholder Administration fees and Transfer Agency fees. Non-class specific expenses directly incurred by a Fund are charged to that Fund, while such expenses incurred by the Trust are allocated across the respective Funds on a straight-line and/or pro-rata basis depending upon the nature of the expenses.
D. Federal Taxes and Distributions to Shareholders - It is each Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies (mutual funds) and to distribute each year substantially all of its investment company taxable and tax-exempt income and capital gains to its shareholders. Accordingly, each Fund is not required to make any provisions for the payment of federal income tax. Distributions to shareholders are declared and recorded daily and paid monthly by the Funds and may include short-term capital gains. Long-term capital gain distributions, if any, are declared and paid annually. A Fund may defer or accelerate the timing of the distribution of short-term capital gains (or any portion thereof).

Net capital losses, if any, are carried forward to future fiscal years and may be used to the extent allowed by the Code to offset any future capital gains. Utilization of capital loss carryforwards will reduce the requirement of future capital gains distributions.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with federal income tax rules, which may differ from GAAP. The source of each Fund's distributions may be shown in the accompanying financial statements as either from distributable earnings or capital. Certain components of the Funds' net assets on the Statements of Assets and Liabilities reflect permanent GAAP/tax differences based on the appropriate tax character.
E. Forward Commitments - A forward commitment involves entering into a contract to purchase or sell securities, typically on an extended settlement basis, for a fixed price at a future date. The purchase of securities on a forward commitment basis involves a risk of loss if the value of the security to be purchased declines before the settlement date. Conversely, the sale of securities on a forward commitment basis involves the risk that the value of the securities sold may increase before the settlement date. Although a Fund will generally purchase securities on a forward commitment basis with the intention of acquiring the securities for its portfolio, the Fund may dispose of forward commitments prior to settlement which may result in a realized gain or loss.
F. Repurchase Agreements - Repurchase agreements involve the purchase of securities subject to the seller's agreement to repurchase the securities at a mutually agreed upon date and price, under the terms of a Master Repurchase Agreement ("MRA"). During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of a Fund, including accrued interest, is required to exceed the value of the repurchase agreement, including accrued interest. The gross value of repurchase agreements is included in the Statements of Assets and Liabilities for financial reporting purposes. The underlying securities for all repurchase agreements are held at the Funds' custodian or designated sub-custodians under tri-party repurchase agreements.

An MRA governs transactions between a Fund and select counterparties. An MRA contains provisions for, among other things, initiation of the transaction, income payments, events of default, and maintenance of securities for repurchase agreements. An MRA also permits offsetting with collateral to create one single net payment in the event of default or similar events, including the bankruptcy or insolvency of a counterparty.

If the seller defaults, a Fund could suffer a loss to the extent that the proceeds from the sale of the underlying securities and other collateral held by the Fund are less than the repurchase price and the Fund's costs associated with delay and enforcement of the repurchase agreement. In addition, in the event of default or insolvency of the seller, a court could determine that a Fund's interest in the collateral is not enforceable, resulting in additional losses to the Fund.

Pursuant to exemptive relief granted by the Securities and Exchange Commission ("SEC") and terms and conditions contained therein, the Funds, together with other funds of the Trust and registered investment companies having management agreements with GSAM or its affiliates, may transfer uninvested cash into joint accounts, the daily aggregate balance of which is invested in one or

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

more repurchase agreements. Under these joint accounts, the Funds maintain pro-rata credit exposure to the underlying repurchase agreements' counterparties. With the exception of certain transaction fees, the Funds are not subject to any expenses in relation to these investments.

## 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS

U.S. GAAP defines the fair value of a financial instrument as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price); the Funds' policy is to use the market approach. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these investments. The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
Level 2 - Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including, but not limited to, quoted prices for similar investments, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly;
Level 3 - Prices or valuations that require significant unobservable inputs (including GSAM's assumptions in determining fair value measurement).

The Trustees have approved Valuation Procedures that govern the valuation of the portfolio investments held by the Funds, including investments for which market quotations are not readily available. With respect to the Funds' investments that do not have readily available market quotations, the Trustees have designated the Adviser as the valuation designee to perform fair valuations pursuant to Rule 2a-5 under the Investment Company Act of 1940 (the "Valuation Designee"). GSAM has day-to-day responsibility for implementing and maintaining internal controls and procedures related to the valuation (including both the amortized cost and market-based methods of valuation) of the Funds' investments. To assess the continuing appropriateness of pricing sources and methodologies related to the market-based method of valuation, GSAM regularly performs price verification procedures and issues challenges as necessary to third party pricing vendors or brokers, and any differences are reviewed in accordance with the Valuation Procedures.

As of November 30, 2023, all investments, other than those held by the Institutional Money Market Funds, are classified as Level 2 of the fair value hierarchy. All investments for the Institutional Money Market Funds are classified as Level 2, with the exception of treasury securities of G7 countries which are generally classified as Level 1. Please refer to the Schedules of Investments for further detail.

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS

A. Management Agreement - Under the Agreements, GSAM manages the Funds, subject to the general supervision of the Trustees.

As compensation for the services rendered pursuant to the Agreements, the assumption of the expenses related thereto and administration of the Funds' business affairs, including providing facilities, GSAM is entitled to a management fee, accrued daily and paid monthly, equal to an annual percentage rate of each Fund's average daily net assets.
B. Administration, Service and/or Shareholder Administration Plans - The Trust, on behalf of each applicable Fund, has adopted Administration, Service and/or Shareholder Administration Plans (the "Plans") to allow Class C, Select, Preferred, Capital, Administration, Premier, Service, Resource and Cash Management Shares to compensate service organizations (including Goldman Sachs) for providing varying levels of account administration and/or personal and account maintenance services to their customers

## Notes to Financial Statements (continued)

November 30, 2023

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

who are beneficial owners of such shares. The Plans provide for compensation to the service organizations equal to an annual percentage rate of the average daily net assets of such shares.
C. Distribution and/or Service (12b-1) Plans - The Trust, on behalf of Class A Shares of each applicable Fund, has adopted a Distribution and Service Plan subject to Rule 12b-1 under the Act. Under the Distribution and Service Plan, Goldman Sachs, which serves as distributor (the "Distributor"), is entitled to a fee accrued daily and paid monthly for distribution services and personal and account maintenance services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class A Shares of the Funds, as set forth below.

The Trust, on behalf of Class C, Resource and Cash Management Shares of each applicable Fund, has adopted Distribution Plans subject to Rule 12b-1 under the Act. Under the Distribution Plans, Goldman Sachs as Distributor is entitled to a fee accrued daily and paid monthly for distribution services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class C, Resource and Cash Management Shares of the Funds, as set forth below.

The Trust, on behalf of the Service Shares of each applicable Fund, has adopted a Service Plan subject to Rule 12b-1 under the Act to allow Service Shares to compensate service organizations (including Goldman Sachs) for providing personal and account maintenance services to their customers who are beneficial owners of such shares. The Service Plan provides for compensation to the service organizations equal to an annual percentage rate of the average daily net assets attributable to Service Shares of the Funds, as set forth below.
D. Distribution Agreement - Goldman Sachs, as Distributor of the shares of the Funds pursuant to a Distribution Agreement, may retain a portion of the Class C Shares' CDSC. During the fiscal year ended November 30, 2023, Goldman Sachs retained $\$ 2,177$ in CDSCs with respect to Class C Shares of the Financial Square Government Fund.
E. Transfer Agency Agreement - Goldman Sachs also serves as the transfer agent of the Funds for a fee pursuant to a Transfer Agency Agreement. The fee charged for such transfer agency services is accrued daily and paid monthly and is equal to an annual percentage rate of each Fund's average daily net assets.
F. Other Agreements - GSAM has agreed to reduce or limit certain "Other Expenses" of the Funds (excluding acquired fund fees and expenses, transfer agency fees and expenses, administration fees (as applicable), service fees (as applicable), shareholder administration fees (as applicable), taxes, interest, brokerage fees, expenses of shareholder meetings, litigation and indemnification, and extraordinary expenses) to the extent such expenses exceed, on an annual basis, $0.014 \%$ of the average daily net assets of each Fund. Such Other Expense reimbursements, if any, are accrued daily and paid monthly. These Other Expense limitations will remain in place through at least March 29, 2024, and prior to such date GSAM may not terminate the arrangements without the approval of the Trustees.

In addition, the Funds have entered into certain offset arrangements with the custodian, which may result in a reduction of the Funds' expenses and are received irrespective of the application of the "Other Expense" limitations described above.

## G. Total Fund Expenses

## Fund Contractual Fees

The contractual management fee rate is $0.18 \%$ for the Financial Square Federal Instruments, Financial Square Treasury Instruments, Financial Square Treasury Obligations and Financial Square Treasury Solutions Funds and $0.16 \%$ for the Financial Square Government, Financial Square Money Market and Financial Square Prime Obligations Funds. The Transfer Agency Fee is $0.01 \%$ for all funds.

Other contractual annualized rates for each of the Funds are as follows:

|  | Class A <br> Shares | Class C <br> Shares |  |  | Preferred <br> Chares | Select Shares |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Administration, Service and/or Shareholder Administration Fees ${ }^{*}$ | N/A | $0.25 \%$ | $0.15 \%$ | $0.25 \%$ | $0.10 \%$ | $0.03 \%$ |
| Distribution and/or Service (12b-1) Fees | $0.25 \%$ | $0.75 \% 0^{(b)}$ | N/A | $0.25 \%$ | Nervice Shares | N/A |

|  | Administration Shares | Cash Management Shares | Premier Shares | Resource Shares |
| :---: | :---: | :---: | :---: | :---: |
| Administration, Service and/or Shareholder Administration Fees* | 0.25\% | 0.50\% | 0.35\% | 0.50\% |

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

|  | Administration Shares | Cash <br> Management Shares | Premier Shares | Resource Shares |
| :---: | :---: | :---: | :---: | :---: |
| Distribution and/or Service (12b-1) Fees | N/A | $0.30 \%{ }^{(b)}$ | N/A | 0.15\% ${ }^{(\mathrm{b})}$ |

* Class D Shares, Institutional Shares, Class R6 Shares, Drexel Hamilton Class Shares, Loop Class Shares, and Seelaus Class Shares have no Administration, Service, Shareholder Administration or Distribution and/or Service (12b-1) fees.
(a) Government Fund only.
(b) Distribution (12b-1) fee only.
(c) Service (12b-1) fee only.

N/A Fees not applicable to respective share class.

## Fund Effective Net Expenses (After Waivers and Reimbursements)

The investment adviser may contractually agree to waive or reimburse certain fees and expenses until a specified date. The investment adviser may also voluntarily waive certain fees and expenses, and such voluntary waivers may be discontinued or modified at any time without notice.

The Funds are not obligated to reimburse GSAM or Goldman Sachs for prior fiscal year fee waivers and/or expense reimbursements, if any.

For the fiscal year ended November 30, 2023, expense reductions including any fee waivers and Other Expense reimbursements were as follows (in thousands):

| Fund | Other Expense <br> Reimbursements | Total Expense <br> Reductions |  |
| :--- | :---: | :---: | :---: |
| Prime Obligations Fund | $\$$ | 224 | $\$$ |

For the fiscal year ended November 30, 2023, the net effective management fee rate was $0.16 \%$ for the Financial Square Government Fund, Financial Square Money Market, and Financial Square Prime Obligations, and $0.18 \%$ for Financial Square Federal Instruments, Financial Square Treasury Instruments, Financial Square Treasury Obligations, and Financial Square Treasury Solutions Funds.
H. Other Transactions with Affiliates - A Fund may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is solely due to having a common investment adviser, common officers, or common Trustees.

For the fiscal year ended November 30, 2023, the purchase and sale transactions and related net realized gain (loss) for the Funds with affiliated funds in compliance with Rule 17a-7 under the Act were as follows:

| Fund | Purchases |  | Net Realized <br> Gain/(Loss) |  |
| :--- | ---: | ---: | ---: | :---: |
| Government Fund | $\$$ | - | $\$ 1,287,107,496$ | $\$$ |
| Treasury Instruments Fund | $1,499,615,640$ | - | $(879,875)$ |  |
| Treasury Obligations Fund | - | - | $(149,822)$ |  |
| Treasury Solutions Fund | - | $210,830,652$ |  |  |

As of November 30, 2023, The Goldman Sachs Group, Inc. was the beneficial owner of $5 \%$ or more of the outstanding share classes of the following Funds:

| Fund | Capital Shares | Preferred Shares | Service Shares |
| :--- | :---: | :---: | :---: | | Drexel Hamilton Class |
| :---: |
| Shares |

I. Line of Credit Facility - As of November 30, 2023, the Funds participated in a $\$ 1,110,000,000$ committed, unsecured revolving line of credit facility (the "facility") together with other funds of the Trust and certain registered investment companies having management agreements with GSAM or its affiliates. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on the federal funds rate.

## Notes to Financial Statements (continued)

November 30, 2023

## 4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

The facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. For the fiscal year ended November 30, 2023, the Funds did not have any borrowings under the facility. Prior to April 19, 2023, the facility was $\$ 1,250,000,000$.

## 5. TAX INFORMATION

The tax character of distributions paid during the fiscal year ended November 30, 2023 was as follows:

|  | Federal Instruments Fund |  | Government Fund |  | Money Market Fund |  | Prime Obligations Fund |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Timing differences - Dividends Payable | \$ | $(147,584,859)$ | \$ | $(127,941,057)$ | \$ | $(24,159,351)$ |
| Unrealized gains (losses) - net | \$ | $(110,539)$ | \$ | $(64,918)$ | \$ | $(22,134)$ |
| Total accumulated earnings (losses) - net | \$ | $(874,938)$ | \$ | 1,750,292 | \$ | 728,389 |

For the period ended November 30, 2023, the Financial Square Federal Instruments, Financial Square Prime Obligations, Financial Square Treasury Obligations and Financial Square Treasury Solutions utilized $\$ 556,016, \$ 34,872, \$ 2,513,382$ and $\$ 1,234,616$, respectively, in Capital Loss Carryforwards.

The aggregate cost for each Fund stated in the accompanying Statements of Assets and Liabilities also represents aggregate cost for U.S. federal income tax purposes.

In order to present certain components of the Funds' capital accounts on a tax basis, certain reclassifications have been recorded to the Funds' accounts. These reclassifications have no impact on the NAV of the Funds and result primarily from dividend redesignations, non-deductible expenses and net operating losses.

GSAM has reviewed the Funds' tax positions for all open tax years (the current and prior three tax years, as applicable) and has concluded that no provision for income tax is required in the Funds' financial statements. Such open tax years remain subject to examination and adjustment by tax authorities.

## 6. OTHER RISKS

The Funds' risks include, but are not limited to, the following:
Credit/Default Risk - An issuer or guarantor of a security held by a Fund, or a bank or other financial institution that has entered into a repurchase agreement with the Fund, may default on its obligation to pay interest and repay principal or default on any other obligation. Additionally, the credit quality of securities may deteriorate rapidly, which may impair a Fund's liquidity and cause significant deterioration in NAV.

Interest Rate Risk - When interest rates increase, a Fund's yield will tend to be lower than prevailing market rates, and the market value of its investments will generally decline. A wide variety of market factors can cause interest rates to rise, including central bank monetary policy, rising inflation and changes in general economic conditions. Changing interest rates may have unpredictable effects on the markets, may result in heightened market volatility and may detract from Fund performance. In addition, changes in monetary policy may exacerbate the risks associated with changing interest rates. A low interest rate environment poses additional risks to a Fund, because low yields on the Fund's portfolio holdings may have an adverse impact on the Fund's ability to provide a positive yield to its shareholders, pay expenses out of current income, or minimize the volatility of the Fund's NAV per share and/ or achieve its investment objective. Fluctuations in interest rates may also affect the liquidity of the Fund investments. A sudden or unpredictable increase in interest rates may cause volatility in the market and may decrease the liquidity of the Fund's investments, which would make it harder for the Fund to sell its investments at an advantageous time.

Large Shareholder Transactions Risk - A Fund may experience adverse effects when certain large shareholders, such as other funds, institutional investors (including those trading by use of non-discretionary mathematical formulas), financial intermediaries (who may make investment decisions on behalf of underlying clients and/or include a Fund in their investment model), individuals, accounts and Goldman Sachs affiliates, purchase or redeem large amounts of shares of a Fund. Such large shareholder redemptions, which may occur rapidly or unexpectedly, may cause a Fund to sell portfolio securities at times when it would not otherwise

# Notes to Financial Statements (continued) 

November 30, 2023

## 6. OTHER RISKS (continued)

do so, which may negatively impact the Fund's NAV and liquidity. Similarly, large Fund share purchases may adversely affect a Fund's performance to the extent that the Fund is delayed in investing new cash or otherwise maintains a larger cash position than it ordinarily would. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments resulted in gains and may also increase transaction costs. In addition, a large redemption could result in a Fund's current expenses being allocated over a smaller asset base, leading to an increase in the Fund's expense ratio.

Liquidity Risk - The Funds may make investments that are illiquid or that may become less liquid in response to market developments or adverse investor perceptions. Illiquid investments may be more difficult to value. The liquidity of portfolio securities can deteriorate rapidly due to credit events affecting issuers or guarantors, such as a credit rating downgrade, or due to general market conditions or a lack of willing buyers. An inability to sell one or more portfolio positions, or selling such positions at an unfavorable time and/or under unfavorable conditions, can adversely affect a Fund's ability to maintain a stable $\$ 1.00$ share price (or, for the Institutional Money market Funds, can increase the volatility of a Fund's NAV per share). Liquidity risk may also refer to the risk that the Fund will not be able to pay redemption proceeds within the allowable time period because of unusual market conditions, declining prices of the securities sold, an unusually high volume of redemption requests, or other reasons. Liquidity risk may be the result of, among other things, the reduced number and capacity of traditional market participants to make a market in fixed income securities or the lack of an active market. The potential for liquidity risk may be magnified by a rising interest rate environment or other circumstances where investor redemptions from money market and other fixed income mutual funds may be higher than normal, potentially causing increased supply in the market due to selling activity.

Market and Credit Risks - In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk). The value of the securities in which a Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world due to increasingly interconnected global economies and financial markets. Events such as war, military conflict, acts of terrorism, social unrest, natural disasters, recessions, inflation, rapid interest rate changes, supply chain disruptions, sanctions, the spread of infectious illness or other public health threats could also significantly impact a Fund and its investments. Additionally, a Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which a Fund has unsettled or open transactions defaults.

## 7. INDEMNIFICATIONS

Under the Trust's organizational documents, its Trustees, officers, employees and agents are indemnified, to the extent permitted by the Act and state law, against certain liabilities that may arise out of performance of their duties to the Funds. Additionally, in the course of business, the Funds enter into contracts that contain a variety of indemnification clauses. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, GSAM believes the risk of loss under these arrangements to be remote.

## 8. OTHER MATTERS

Exemptive Orders - Pursuant to SEC exemptive orders, the Funds may enter into certain principal transactions, including repurchase agreements, with Goldman Sachs.

Pursuant to an effort to consolidate the membership of the Board of Trustees of the Trust (the "Board") with the Board of Trustees of each of Goldman Sachs ETF Trust, Goldman Sachs ETF Trust II, Goldman Sachs Real Estate Diversified Income Fund, Goldman Sachs Trust II and Goldman Sachs Variable Insurance Trust, in July 2023, the Board voted to nominate Cheryl K. Beebe, John G. Chou, Eileen H. Dowling, Lawrence Hughes, John F. Killian, Steven D. Krichmar, Michael Latham, Lawrence W. Stranghoener and Paul C. Wirth (the "Nominees") for election as Trustees of the Trust. Messrs. Chou and Wirth and Ms. Dowling currently serve as Trustees of the Trust. At a virtual special joint meeting of shareholders held on November 16, 2023, each of the Nominees (except Messrs. Chou and Wirth and Ms. Dowling) was elected to serve as Trustees alongside the current Trustees of the Trust, effective January 1, 2024. Each of Messrs. Chou and Wirth and Ms. Dowling was also elected at the meeting and continue to serve as Trustees of the Trust.

## 9. SUBSEQUENT EVENTS

All subsequent events after the Statements of Assets and Liabilities date have been evaluated and GSAM has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Goldman Sachs Trust and Shareholders of Goldman Sachs Financial Square Federal Instruments Fund, Goldman Sachs Financial Square Government Fund, Goldman Sachs Financial Square Money Market Fund, Goldman Sachs Financial Square Prime Obligations Fund, Goldman Sachs Financial Square Treasury Instruments Fund, Goldman Sachs Financial Square Treasury Obligations Fund, and Goldman Sachs Financial Square Treasury Solutions Fund
Opinions on the Financial Statements
We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Goldman Sachs Financial Square Federal Instruments Fund, Goldman Sachs Financial Square Government Fund, Goldman Sachs Financial Square Money Market Fund, Goldman Sachs Financial Square Prime Obligations Fund, Goldman Sachs Financial Square Treasury Instruments Fund, Goldman Sachs Financial Square Treasury Obligations Fund, and Goldman Sachs Financial Square Treasury Solutions Fund (seven of the funds constituting Goldman Sachs Trust, hereafter collectively referred to as the "Funds") as of November 30, 2023, the related statements of operations for the year ended November 30, 2023, the statements of changes in net assets for each of the two years in the period ended November 30, 2023, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of November 30, 2023, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended November 30, 2023 and each of the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

## Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of November 30, 2023 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

We have served as the auditor of one or more investment companies in the Goldman Sachs fund complex since 2000.

## Statement Regarding Basis for Approval of Management Agreement (Unaudited)

## Background

The Goldman Sachs Financial Square Federal Instruments Fund, Goldman Sachs Financial Square Government Fund, Goldman Sachs Financial Square Money Market Fund, Goldman Sachs Financial Square Prime Obligations Fund, Goldman Sachs Financial Square Treasury Instruments Fund, Goldman Sachs Financial Square Treasury Obligations Fund, and Goldman Sachs Financial Square Treasury Solutions Fund (the "Funds") are investment portfolios of Goldman Sachs Trust (the "Trust"). The Board of Trustees oversees the management of the Trust and reviews the investment performance and expenses of the Funds at regularly scheduled meetings held throughout the year. In addition, the Board of Trustees determines annually whether to approve the continuance of the Trust's investment management agreement (the "Management Agreement") with Goldman Sachs Asset Management, L.P. (the "Investment Adviser") on behalf of the Funds.

The Management Agreement was most recently approved for continuation until June 30, 2024 by the Board of Trustees, including those Trustees who are not parties to the Management Agreement or "interested persons" (as defined in the Investment Company Act of 1940, as amended) of any party thereto (the "Independent Trustees"), at a meeting held on June 13-14, 2023 (the "Annual Meeting").

The review process undertaken by the Trustees spans the course of the year and culminates with the Annual Meeting. To assist the Trustees in their deliberations, the Trustees have established a Contract Review Committee (the "Committee"), comprised of the Independent Trustees. The Committee held two meetings over the course of the year since the Management Agreement was last approved. At those Committee meetings, regularly scheduled Board or other committee meetings, and/or the Annual Meeting, matters relevant to the renewal of the Management Agreement were considered by the Board, or the Independent Trustees, as applicable. With respect to each Fund, such matters included:
(a) the nature and quality of the advisory, administrative, and other services provided to the Fund by the Investment Adviser and its affiliates, including information about:
(i) the structure, staff, and capabilities of the Investment Adviser and its portfolio management teams;
(ii) the groups within the Investment Adviser and its affiliates that support the portfolio management teams or provide other types of necessary services, including fund services groups (e.g., accounting and financial reporting, tax, shareholder services, and operations); controls and risk management groups (e.g., legal, compliance, valuation oversight, credit risk management, internal audit, compliance testing, market risk analysis, finance, and central funding); sales and distribution support groups, and others (e.g., information technology and training);
(iii) trends in employee headcount;
(iv) the Investment Adviser's financial resources and ability to hire and retain talented personnel and strengthen its operations; and
(v) the parent company's support of the Investment Adviser and its mutual fund business, as expressed by the firm's senior management;
(b) information on the investment performance of the Fund, including comparisons to the performance of similar mutual funds, as provided by a third-party mutual fund data provider engaged as part of the contract review process (the "Outside Data Provider"), and information on general investment outlooks in the markets in which the Fund invests;
(c) the terms of the Management Agreement and other agreements with affiliated service providers entered into by the Trust on behalf of the Fund;
(d) fee and expense information for the Fund, including:
(i) the relative management fee and expense levels of the Fund as compared to those of comparable funds managed by other advisers, as provided by the Outside Data Provider;
(ii) the Fund's expense trends over time; and
(iii) to the extent the Investment Adviser manages other types of accounts (such as bank collective trusts, private wealth management accounts, institutional separate accounts, sub-advised mutual funds, and non-U.S. funds) having investment objectives and policies similar to those of the Fund, comparative information on the advisory fees charged and services provided to those accounts by the Investment Adviser;
(e) with respect to the extensive investment performance and expense comparison data provided by the Outside Data Provider, its processes in producing that data for the Fund;
(f) the undertakings of the Investment Adviser and its affiliates to implement fee waivers and/or expense limitations;
(g) information relating to the profitability of the Management Agreement and the transfer agency and distribution and service arrangements of the Fund to the Investment Adviser and its affiliates;
(h) whether the Fund's existing management fee adequately addressed any economies of scale;
(i) a summary of the "fall-out" benefits derived by the Investment Adviser and its affiliates from their relationships with the Fund, including the fees received by the Investment Adviser's affiliates from the Fund for transfer agency, distribution and other services;
(j) a summary of potential benefits derived by the Fund as a result of its relationship with the Investment Adviser;
(k) information regarding portfolio trading and how the Investment Adviser carries out its duty to seek best execution;
(1) the nature and quality of the services provided to the Fund by its unaffiliated service providers, and the Investment Adviser's general oversight and evaluation (including reports on due diligence) of those service providers as part of the administrative services provided under the Management Agreement; and

## Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

(m) the Investment Adviser's processes and policies addressing various types of potential conflicts of interest; its approach to risk management; the annual review of the effectiveness of the Fund's compliance program; and periodic compliance reports.
The Trustees also received an overview of the Funds' distribution arrangements. They received information regarding the Funds' assets, share purchase and redemption activity, and payment of distribution, service, and shareholder administration fees, as applicable. Information was also provided to the Trustees relating to revenue sharing payments made by and services provided by the Investment Adviser and its affiliates to intermediaries that promote the sale, distribution, and/or servicing of Fund shares. The Independent Trustees also discussed the broad range of other investment choices that are available to Fund investors, including the availability of comparable funds managed by other advisers.

The presentations made at the Board and Committee meetings and at the Annual Meeting encompassed the Funds and other mutual funds for which the Board of Trustees has responsibility. In evaluating the Management Agreement at the Annual Meeting, the Trustees relied upon their knowledge, resulting from their meetings and other interactions throughout the year, of the Investment Adviser and its affiliates, their services, and the Funds. In conjunction with these meetings, the Trustees received written materials and oral presentations on the topics covered, and the Investment Adviser addressed the questions and concerns of the Trustees, including concerns regarding the investment performance of certain of the funds they oversee. The Independent Trustees were advised by their independent legal counsel regarding their responsibilities and other regulatory requirements related to the approval and continuation of mutual fund investment management agreements under applicable law. In addition, the Investment Adviser and its affiliates provided the Independent Trustees with a written response to a formal request for information sent on behalf of the Independent Trustees by their independent legal counsel. During the course of their deliberations, the Independent Trustees met in executive sessions with their independent legal counsel, without representatives of the Investment Adviser or its affiliates present.

## Nature, Extent, and Quality of the Services Provided Under the Management Agreement

As part of their review, the Trustees considered the nature, extent, and quality of the services provided to the Funds by the Investment Adviser. In this regard, the Trustees considered both the investment advisory services and non-advisory services that are provided by the Investment Adviser and its affiliates. The Trustees noted the transition in the leadership and changes in personnel of various of the Investment Adviser's portfolio management teams that had occurred in recent periods, and the ongoing recruitment efforts aimed at bringing high quality investment talent to the Investment Adviser. They also noted the Investment Adviser's commitment to maintaining high quality systems and expending substantial resources to respond to ongoing changes to the market, regulatory and control environment in which the Funds and their service providers operate, including developments associated with the COVID-19 pandemic, geopolitical events, and economic sanctions, as well as the efforts of the Investment Adviser and its affiliates to combat cyber security risks. The Trustees also considered information regarding the Investment Adviser's business continuity planning and remote operations capabilities. The Trustees concluded that the Investment Adviser continued to commit substantial financial and operational resources to the Funds and expressed confidence that the Investment Adviser would continue to do so in the future. The Trustees also recognized that the Investment Adviser had made significant commitments to address regulatory compliance requirements applicable to the Funds and the Investment Adviser and its affiliates.

## Investment Performance

The Trustees also considered the investment performance of the Funds. In this regard, they compared the investment performance of each Fund to its peers using rankings compiled by the Outside Data Provider as of December 31, 2022. The information on each Fund's investment performance was provided for the one-, three-, five-, and ten-year periods ending on the applicable dates, to the extent that each Fund had been in existence for those periods.

In addition, the Trustees considered materials prepared and presentations made by the Investment Adviser's senior management and portfolio management personnel in which Fund performance was assessed. The Trustees also considered the Investment Adviser's periodic reports with respect to the Funds' risk profiles, and how the Investment Adviser's approach to risk monitoring and management influences portfolio management.

The Trustees considered the performance of the Funds in light of their respective investment policies and strategies. They considered that, since March 2022, the Federal Reserve has implemented a series of interest rate increases in response to inflationary pressures impacting the broader economy, and the Funds' yields had improved compared to other recent periods as a result. They noted that the Investment Adviser has subsequently been able to reduce the amount of fees waived and/or reimbursed relative to such amounts waived and/or reimbursed during recent challenging yield environments, including the near-zero interest rate environment following the market disruptions related to the COVID-19 pandemic and related actions by the Federal Reserve. The Trustees acknowledged, however, that the interest rate environment remains uncertain in light of broader economic conditions. They considered that, during the relevant period, the Investment Adviser had voluntarily waived fees for all of the Funds and reimbursed expenses for the Financial Square Prime Obligations Fund, Financial Square Money Market Fund, and Financial Square Federal Instruments Fund, in order to maintain competitive yields. The Trustees also considered that each of the Government Money

## Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

Market Funds had maintained a stable net asset value per share. With respect to each of the Prime Institutional Money Market Funds, the Trustee acknowledged that the net asset value per share for each of the Financial Square Prime Obligations Fund and Financial Square Money Market Fund had experienced some principal volatility in connection with the market disruptions related to the COVID-19 pandemic and that their net asset value subsequently had generally stabilized and experienced minimal principal volatility during the relevant period. In addition, the Trustees observed that the U.S. Securities and Exchange Commission (the "SEC") is likely to adopt certain reforms to the regulatory framework governing money market funds and that compliance with those reforms could require a significant investment of resources by the Investment Adviser. In light of these considerations, the Trustees believed that the Funds were providing investment performance within a competitive range for investors.

## Costs of Services Provided and Competitive Information

The Trustees considered the contractual terms of the Management Agreement and the fee rates payable by each Fund thereunder. In this regard, the Trustees considered information on the services rendered by the Investment Adviser to the Funds, which included both advisory and administrative services that were directed to the needs and operations of the Funds as registered mutual funds.

In particular, the Trustees reviewed analyses prepared by the Outside Data Provider regarding the expense rankings of the Funds. The analyses provided a comparison of each Fund's management fee to those of a relevant peer group and category universe; an expense analysis which compared each Fund's overall net and gross expenses to a peer group and a category universe; and data comparing each Fund's net expenses to the peer and category medians. The analyses also compared each Fund's other expenses and fee waivers/reimbursements to those of the peer group and category medians. The Trustees concluded that the comparisons provided by the Outside Data Provider were useful in evaluating the reasonableness of the management fees and total expenses paid by the Funds.

In addition, the Trustees considered the Investment Adviser's undertakings to implement fee waivers and/or expense limitations. They noted that the Investment Adviser and Goldman Sachs \& Co. LLC ("Goldman Sachs") had voluntarily waived fees for the Financial Square Prime Obligations and Financial Square Money Market Funds, contractually waived fees for the Financial Square Federal Instruments Fund, and reimbursed expenses for the Financial Square Prime Obligations Fund and Financial Square Federal Instruments Fund in order to maintain competitive yields. They observed that the Investment Adviser had reduced its voluntary management fee waivers for the Financial Square Prime Obligations Fund and Financial Square Money Market Fund throughout the year with the rise in interest rates. They also acknowledged the growth of the Funds, particularly the relative growth of the Financial Square Money Market Fund and Financial Square Prime Obligations Fund, in recent periods. They also considered, to the extent that the Investment Adviser manages other types of accounts having investment objectives and policies similar to those of the Funds, comparative fee information for services provided by the Investment Adviser to those accounts, and information that indicated that services provided to the Funds differed in various significant respects from the services provided to other types of accounts which, in many cases, operated under less stringent legal and regulatory structures, required fewer services from the Investment Adviser to a smaller number of client contact points, and were less time-intensive.

In addition, the Trustees noted that shareholders are able to redeem their shares at any time if shareholders believe that the Fund fees and expenses are too high or if they are dissatisfied with the performance of the Fund.

## Profitability

The Trustees reviewed each Fund's contribution to the Investment Adviser's revenues and pre-tax profit margins. In this regard the Trustees noted that they had received, among other things, profitability analyses and summaries, revenue and expense schedules by Fund and by function (i.e., investment management, transfer agency and distribution and service), and information on the Investment Adviser's expense allocation methodology. They observed that the profitability and expense figures are substantially similar to those used by the Investment Adviser for many internal purposes, including compensation decisions among various business groups, and are thus subject to a vigorous internal debate about how certain revenue and expenses should be allocated. The Trustees also noted that the internal audit group within the Goldman Sachs organization periodically audits the expense allocation methodology and that the internal audit group was satisfied with the reasonableness, consistency, and accuracy of the Investment Adviser's expense allocation methodology. Profitability data for each Fund was provided for 2022 and 2021, and the Trustees considered this information in relation to the Investment Adviser's overall profitability.

## Economies of Scale

The Trustees considered the information that had been provided regarding whether there have been economies of scale with respect to the management of the Funds.

The Trustees noted that the Funds do not have management fee breakpoints. They considered the asset levels in the Funds; the Funds' recent purchase and redemption activity; the information provided by the Investment Adviser relating to the costs of the services provided by the Investment Adviser and its affiliates and their realized profits; information comparing the contractual fee

## Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

rates charged by the Investment Adviser with fee rates charged to other money market funds in the peer groups; and the Investment Adviser's undertaking to limit certain expenses of the Funds that exceed specified levels. They considered a report prepared by the Outside Data Provider, which surveyed money market funds' management fee arrangements and use of breakpoints. The Trustees also considered the competitive nature of the money market fund business and the competitiveness of the fees charged to the Funds by the Investment Adviser.

## Other Benefits to the Investment Adviser and Its Affiliates

The Trustees also considered the other benefits derived by the Investment Adviser and its affiliates from their relationships with the Funds as stated above, including: (a) transfer agency fees received by Goldman Sachs; (b) trading efficiencies resulting from aggregation of orders of the Funds with those for other funds or accounts managed by the Investment Adviser; (c) the Investment Adviser's ability to leverage the infrastructure designed to service the Funds on behalf of its other clients; (d) the Investment Adviser's ability to cross-market other products and services to Fund shareholders; (e) Goldman Sachs' retention of certain fees as Fund Distributor; (f) Goldman Sachs' ability to engage in principal transactions with the Funds under exemptive orders from the U.S. Securities and Exchange Commission permitting such trades; (g) the Investment Adviser's ability to negotiate better pricing with custodians on behalf of its other clients, as a result of the relationship with the Funds; (h) the possibility that the working relationship between the Investment Adviser and the Funds' third-party service providers may cause those service providers to be more likely to do business with other areas of Goldman Sachs; and (i) reputational benefits associated with the distribution of certain Fund share classes designed to help further diversity, equity, and inclusion initiatives. In the course of considering the foregoing, the Independent Trustees requested and received further information quantifying certain of these fall-out benefits.

## Other Benefits to the Funds and Their Shareholders

The Trustees also noted that the Funds receive certain other potential benefits as a result of their relationship with the Investment Adviser, including: (a) trading efficiencies resulting from aggregation of orders of the Funds with those of other funds or accounts managed by the Investment Adviser; (b) enhanced servicing from vendors due to the volume of business generated by the Investment Adviser and its affiliates; (c) enhanced servicing from broker-dealers due to the volume of business generated by the Investment Adviser and its affiliates; (d) the advantages received from the Investment Adviser's knowledge and experience gained from managing other accounts and products; (e) the Investment Adviser's ability to hire and retain qualified personnel to provide services to the Funds because of the reputation of the Goldman Sachs organization; (f) the Funds' access, through the Investment Adviser, to certain firm-wide resources (e.g., proprietary risk management systems and databases), subject to certain restrictions; and (g) the Funds' access to certain affiliated distribution channels. In addition, the Trustees noted the competitive nature of the mutual fund marketplace, and considered that many of the Funds' shareholders invested in the Funds in part because of the Funds' relationship with the Investment Adviser and that those shareholders have a general expectation that the relationship will continue.

## Conclusion

In connection with their consideration of the Management Agreement, the Trustees gave weight to each of the factors described above, but did not identify any particular factor as controlling their decision. After deliberation and consideration of all of the information provided, including the factors described above, the Trustees concluded, in the exercise of their business judgment, that the management fees paid by each of the Funds were reasonable in light of the services provided to it by the Investment Adviser, the Investment Adviser's costs and each Fund's current and reasonably foreseeable asset levels. The Trustees unanimously concluded that the Investment Adviser's continued management likely would benefit each Fund and its shareholders and that the Management Agreement should be approved and continued with respect to each Fund until June 30, 2024.

## Voting Results of Special Meeting of Shareholders (Unaudited)

A Special Meeting of Shareholders (the "Meeting") of the Goldman Sachs Trust (the "Trust") was held on November 16, 2023 to consider and elect nominees to the Trust's Board of Trustees. At the Meeting, Cheryl K. Beebe, Lawrence Hughes, John F. Killian, Steven D. Krichmar, Michael Latham and Lawrence W. Stranghoener were elected to the Trust's Board of Trustees. In addition, at the Meeting, John G. Chou, Eileen H. Dowling and Paul C. Wirth, each of whom was previously appointed to the Trust's Board of Trustees rather than elected by shareholders, were elected. In electing the nominees, the Trust's shareholders voted as follows:

| Proposal <br> Election of Trustees | For | Withheld |
| :---: | :---: | :---: |
| Cheryl K. Beebe | 169,452,067,796 | 5,900,273,020 |
| John G. Chou | 173,279,757,273 | 2,072,583,543 |
| Eileen H. Dowling | 173,287,456,218 | 2,064,884,598 |
| Lawrence Hughes | 173,486,691,901 | 1,865,648,915 |
| John F. Killian | 173,511,167,174 | 1,841,173,642 |
| Steven D. Krichmar | 173,484,256,228 | 1,868,084,588 |
| Michael Latham | 173,498,020,286 | 1,854,320,530 |
| Lawrence W. Stranghoener | 173,455,949,165 | 1,896,391,651 |
| Paul C. Wirth | 173,324,070,424 | 2,028,270,391 |

GOLDMAN SACHS FUNDS - FINANCIAL SQUARE FUNDS
Fund Expenses - Six Month Period Ended November 30, 2023 (Unaudited)
As a shareholder of Class A, Class C, Class D, Institutional, Capital, Service, Preferred, Select, Administration, Cash Management, Premier, Resource, Class R6, Drexel Hamilton Class, Loop Class or
Seelaus Class Shares of a Fund, you incur two types of costs: (1) transaction costs, including contingent deferred sales charges (with respect to Class C Shares); and (2) ongoing costs, including management fees
Seelaus Class Shares of a Fund, you incur two types of costs: (1) transaction costs, including contingent deferred sales charges (with respect to Class C Shares); and (2) ongoing costs, including management fees
and distribution, service, administration and/or shareholder administration fees (with respect to all share classes except Institutional Shares and Class R6 Shares) and other Fund expenses. This example is intended help you understand your ongoing costs (in dollars) of investing in Institutional Shares, Select Shares, Preferred Shares. Capital Shares, Administration Shares, Premier Shares, Service Shares, Class A Shares, Class
C Shares, Resource Shares, Cash Management Shares, Class R6 Shares, Drexel Hamilton Class, Loop Class or Seelaus Class Shares of the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.
The example is based on an investment of $\$ 1,000$ invested at the beginning of the period and held for the entire period from June 1, 2023 through November 30, 2023, which represents a period of 183 Actual Expenses - The first line under each share class in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with he amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by $\$ 1,000$ (for example, an $\$ 8,600$ account value divided by $\$ 1,000=8.6$ ), then multiply the result by the number in the first line under the column heading entitled "Expenses Paid" to estimate the expenses you paid on your account during this period.
Hypothetical Example for Comparison Purposes - The second line under each share class in the table below provides information about hypothetical account values and hypothetical expenses based ond example with the $5 \%$ hypothetical examples that appear in the shareholder reports of the other funds.
Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges, redemption fees, or exchange fees.
Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were
included, your costs would have been higher.
Fund Expenses - Six Month Period Ended November 30, 2023 (Unaudited) (continued)

#### Abstract

Economic and market forecasts presented herein reflect our judgment as of the date of this presentation and are subject to change without notice. These forecasts do not take into account the specific investment objectives, restrictions, tax and financial situation or other needs of any specific client. Actual data will vary and may not be reflected here. These forecasts are subject to high levels of uncertainty that may affect actual performance. Accordingly, these forecasts should be viewed as merely representative of a broad range of possible outcomes. These forecasts are estimated, based on assumptions, and are subject to significant revision and may change materially as economic and market conditions change. Goldman Sachs has no obligation to provide updates or changes to these forecasts. Case studies and examples are for ilustrative purposes only. The portfolio risk management process includes an effort to monitor and manage risk, but does not imply low risk The reports concerning the Funds included in this shareholder report may contain certain forward-looking statements about the factors that may affect the performance of the Funds in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Funds, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Funds. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed. A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities and information regarding how a Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (i) without charge, upon request by calling 1-800-526-7384 (for shareholders of Class A Shares or Class C Shares) or 1-800-621-2550 (for shareholders of all other share classes of a Fund); and (ii) on the Securities and Exchange Commission ("SEC") web site at http://www. sec.gov. Goldman Sachs \& Co. LLC ("Goldman Sachs") does not provide legal, tax or accounting advice. Any statement contained in this communication (including any attachments) concerning U.S. tax matters was not intended or written to be used, and cannot be used, for the purpose of avoiding penalties under the Internal Revenue Code, and was written to support the promotion or marketing of the transaction(s) or matter(s) addressed. Clients of Goldman Sachs should obtain their own independent tax advice based on their particular circumstances. Fund holdings and allocations shown are as of November 30, 2023 and may not be representative of future investments. Fund holdings should not be relied on in making investment decisions and should not be construed as research or investment advice regarding particular securities. Current and future holdings are subject to risk. Financial Square Funds ${ }^{\text {sw }}$ is a registered service mark of Goldman Sachs \& Co LLC. This material is not authorized for distribution to prospective investors unless preceded or accompanied by a current Prospectus or summary prospectus, if applicable. Investors should consider a Fund's objective, risks, and charges and expenses, and read the summary prospectus, if available, and/or the Prospectus carefully before investing or sending money. The summary prospectus, if available, and the Prospectus contain this and other information about a Fund and may be obtained from your Intermediary or from Goldman Sachs \& Co LLC by calling (Class A Shares or Class C Shares - 1-800-526-7384) (all other share classes -1-800-621-2550).
