

At Oakmark, we are long-term investors. We attempt to identify growing businesses that are managed to benefit their shareholders. We will purchase securities only when priced substantially below our estimate of intrinsic value. After purchase, we patiently wait for the gap between price and intrinsic value to close.

*SEC Yield is an annualization of the Fund’s total net investment income per share for the 30-day period ended on the last day of the month.

**Expense ratios are from the Fund’s most recent prospectus dated January 28, 2024; actual expenses may vary.

***The Fund’s Adviser has contractually undertaken to waive and/or reimburse certain fees and expenses so that the total annual operating expenses of each class are limited to 0.74%, 0.54%, 0.52% and 0.44% of average net assets, respectively. The contractual advisory fee waiver agreement is effective through January 27, 2025.

†Expressed as a dollar amount based on a \$1,000 investment for a one-year period, assuming no returns.

Initial minimum investment: Investor Class N/A | Advisor Class \$100,000 | Institutional Class \$250,000 | R6 \$1,000,000

Minimums do not apply to omnibus accounts or retirement plans.

Oakmark Bond Fund

Objective

¹Inception Dates: Investor Class 01/28/2022, Advisor Class 06/10/2020, Institutional Class 06/10/2020, R6 Class 12/15/2020

²The index is calculated based on the Institutional Class inception date.

*The performance data quoted represents past performance. **Past performance does not guarantee future results.** The investment return and principal value will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Total return includes change in share prices and, in each case, includes reinvestment of dividends and capital gain distributions. To obtain most recent month-end performance data, visit Oakmark.com. Before investing in any Oakmark Fund, you should carefully consider the Fund’s investment objectives, risks, management fees and other expenses. This and other important information is contained in a Fund’s prospectus and summary prospectus. Please read the prospectus and summary prospectus carefully before investing. For more information, please visit Oakmark.com or call 1-800-OAKMARK (1-800-625-6275).*

The cumulative effect of fees and expenses can substantially reduce the growth of a participant’s or beneficiary’s retirement savings. For more information regarding the long-term effects of fees and expenses on an investment, visit the Department of Labor’s website at: http://www.dol.gov/ebsa/publications/401k_employee.html

Yield to maturity (YTM) is the percentage rate of return for a bond assuming that the investor holds the asset until its maturity date.

Duration is a measure of the sensitivity of the price of a bond or other debt instrument to a change in interest rates.

Maturity is the weighted average of the stated time to maturity for the securities held in the portfolio.

The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid ARM pass-throughs), asset-backed securities and commercial mortgage-backed securities (agency and non-agency). This index is unmanaged and investors cannot invest directly in this index.

Investing in value stocks presents the risk that value stocks may fall out of favor with investors and underperform growth stocks during given periods.

The Fund is recently established and has limited operating and performance history.

The Oakmark Bond Fund invests primarily in a diversified portfolio of bonds and other fixed-income securities. These include, but are not limited to, investment grade corporate bonds; U.S. or non-U.S.-government and government-related obligations (such as, U.S. treasury securities); below investment-grade corporate bonds; agency mortgage backed-securities; commercial mortgage- and asset-backed securities; senior loans (such as, leveraged loans, bank loans, covenant lite loans, and/or floating rate loans); assignments; restricted securities (e.g., Rule 144A securities); and other fixed and floating rate instruments. The Fund may invest up to 20% of its assets in equity securities, such as common stocks and preferred stocks. The Fund may also hold cash or short-term debt securities from time to time and for temporary defensive purposes.

Under normal market conditions, the Fund invests at least 25% of its assets in investment-grade fixed-income securities and may invest up to 35% of its assets in below investment-grade fixed-income securities (commonly known as “high-yield” or “junk bonds”).

Fixed income risks include interest-rate and credit risk. Typically, when interest rates rise, there is a corresponding decline in bond values. Credit risk refers to the possibility that the bond issuer will not be able to make principal and interest payments.

Bond values fluctuate in price so the value of your investment can go down depending on market conditions.

Distributor, Harris Associates Securities L.P., Member FINRA. 12/2023

Natixis Distribution, LLC (Member FINRA | SIPC), a limited purpose broker-dealer and the distributor of various registered investment companies for which advisory services are provided by affiliates of Natixis Investment Managers, is a marketing agent for the Oakmark Funds.
